President
Bill Gaylord

Vice President
James Archambeau

Secretary-Treasurer
Sam Fason

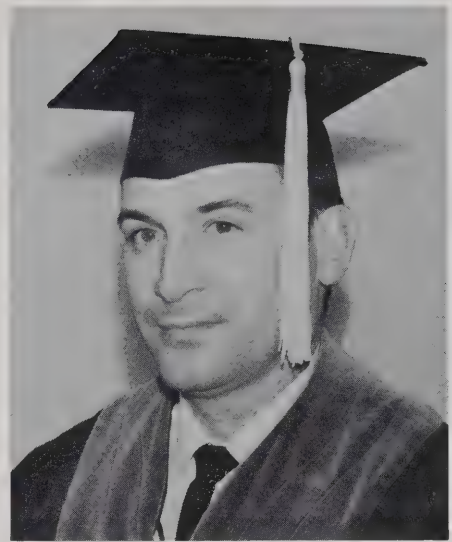

Left to right: Sam Fason, Bill Gaylord and James Archambeau.

Four years and seven days of State Board ago our class brought to this school a new group, conceived in rebellion and dedicated to the idea that we were going to make it. We were engaged in a great Civil War, testing whether the faculty or any individual could long endure. We have come to dedicate a portion of this annual as a final resting place for those ideas that we fought for. It is altogether fitting and proper that we should do this. But, in a larger sense we cannot dedicate—we cannot consecrate—we cannot hallow—this book. The brave men of our class, who struggled here, have confused the faculty far above our poor power to add or detract in this annual. Baylor will always note, and remember what we said here, and it can never forget what we did here. It is for the underclassmen to be dedicated here to the unfinished work which we who fought here have thus far so nobly advanced. It is for them to remain here dedicated to the great task remaining before them—that from these honored we took increased devotion to that cause for which we gave the last full measure of devotion; that those remaining be highly resolved that these ideas shall not have died in vain; that this school, under Dr. McCarthy, shall have a new birth of freedom, and that government of the class, by the class, for the class, shall not perish from this school.

Carroll Carver and Sam Fason explain exhibit at American Dental Association meeting while Drs. Byrd and Stout observe.

I wonder if I'll need all this in the hills of Arkansas

I don't care where you're from, you can't tie camels on Hall Street.

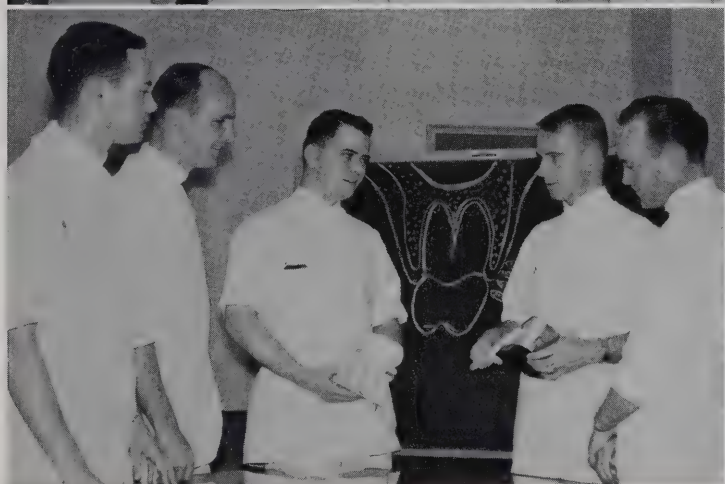

Seniors

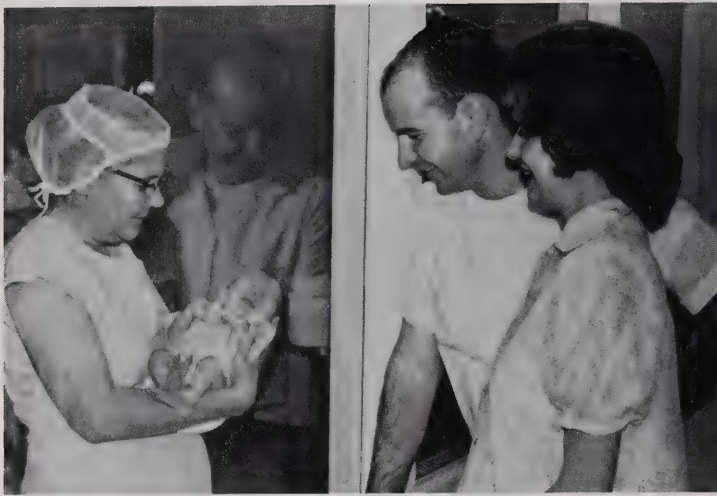

But why does mine say "Greetings from the President of the United States?"

In treating macrodontia . . .

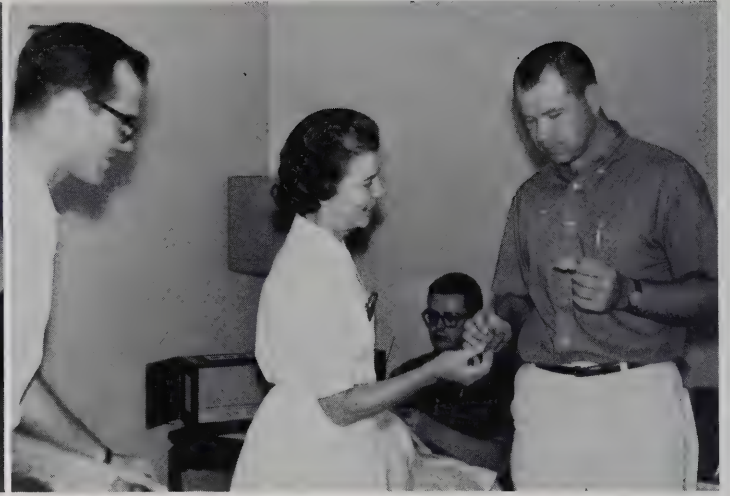

Why, Dennis, why?

I'll give her one more chance

Even Aggies don't study all the time.

After the State Board . . . Hog Jaw munches a bunch!

Seniors

You're sure, Rod . . . 36-23-36 is not an instrument?
Keep smiling, sucker

Yes, Ma'am . . . as I was saying . . . yes, Ma'am . . . as I was
. . . yes, Ma'am . . . as I . . . yes, Ma'am . . .

May . . . senior panic month.

Just like walking the last mile.

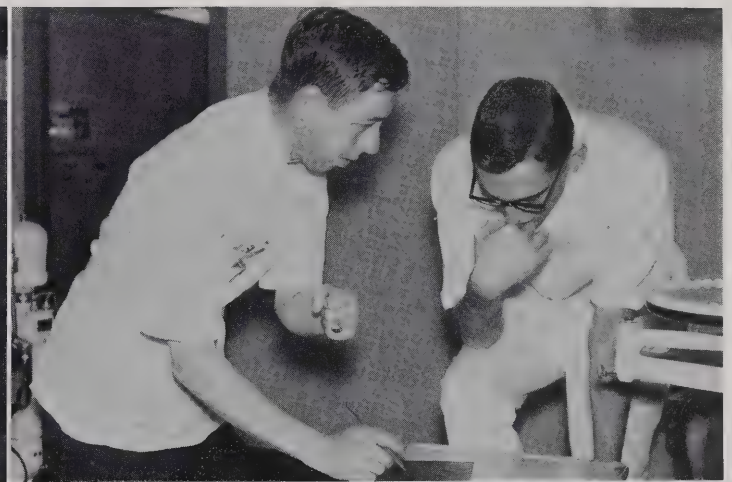

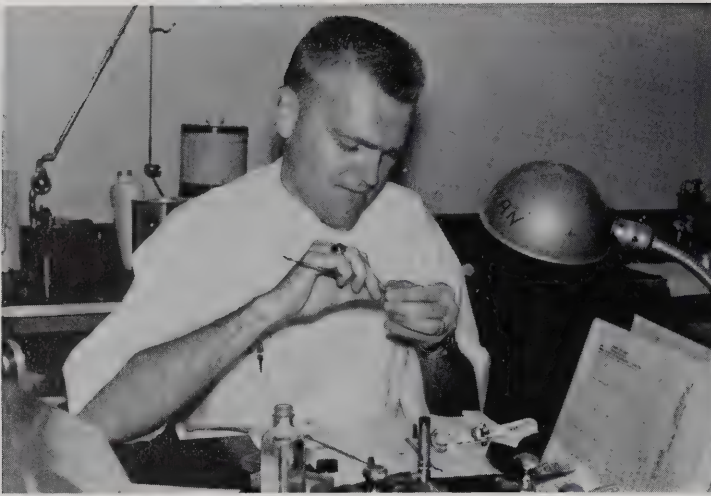

Look, Chief!

Seniors

Dub Wilson working on a *MAN*?
You'll never make it, Johnston.

Get in there and fight, Stinger.
The surgery department gets its morning librium.

I'll have to close this margin with X-ray treatments.

No, Mam' . . . that's not included in this exam.

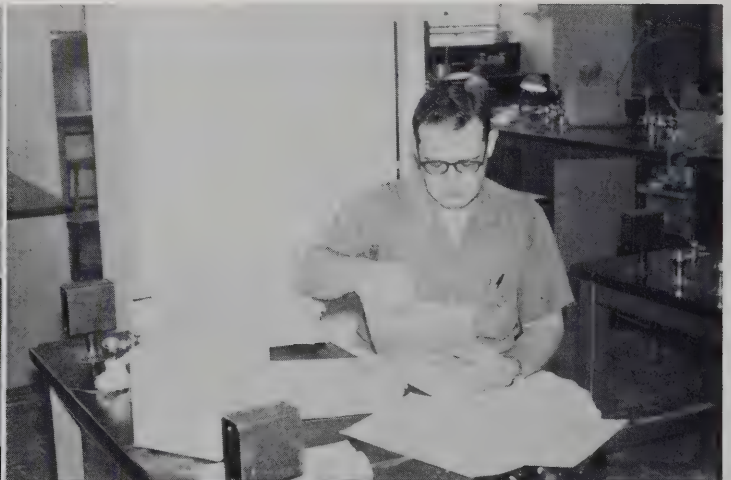

Seniors

This picture defies a caption.

There are 21 seniors and two elephants in this picture . . . find the elephants.

In my office I'll have a direct line through to the pharmacy.

Oh dear . . . there *he* goes again.

Skaggs didn't get the job.

The heart of a lion?

Seniors

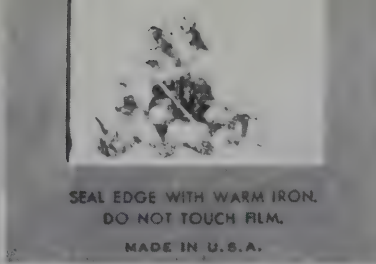

United we stand . . . divided . . .

Maybe D.D.S. does mean dumb dental student.

Don't look now . . . but you're on candid camera.

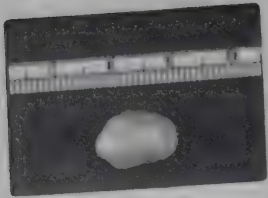

Mock board . . . No golf today.

President
James Hailey

Vice President
John Rumley

Secretary-Treasurer
Darrell Dedrick

Left to right: John Rumley, James Hailey and Darrell Dedrick.

We have each and severally now reached the fourth plateau, confounding in the process our friends, loved ones, instructors and selves—to some extent. We all now know more and are smarter than we have ever been or will be in our lives—with the possible exception of the summer following graduation when some return to the school as clinical instructors.

The past year has been fraught with considerable gnashing of teeth, harder work than most knew existed and no small amount of hooliganism as we sniffed the end of four years in our own little marble and alabaster city within a city—Mother Baylor.

The past year was—as in other years—gratifying from the standpoint of class-initiated “things to think about”: the remarkable series when normally timid and reticent Bagwell and Bice asserted themselves in a dental school improvement series. Or again, the Bartee-Banowsky chewing gum studies.

The year saw outstanding improvements: in the field of medical and dental science, as one department accepted the germ theory of disease; in administration, as the “machine” was installed to hold our fare in its elliptical favor on one or another. Two classmates (who shall remain unnamed) were seen secretly asking questions of the monster while frantically polishing its knobs.

Socially, the year was abundant with fraternal orders sharing the honors. One group (which the year before had sold candy to buy a house) this year sold the house and bought candy. Still another group held its pledge meetings in the second floor phone booth, and yet another stormed the halls of academia emblazoned in quaint uniforms which are said to accentuate the warm togetherness which resides therein. The fraternity spirit is strong at Baylor, however, as is evidenced by a clinical instructor who was overheard repeating “What my fraternity has meant to me.”

There is more—far more—to be said, but all is anticlimactic after many long years. At last we have begun the clinical practice of our chosen profession. With great anticipation we enter the last year still singing “Nobody knows the trouble I see,” but confidently bearing in mind our motto, “Non Carborundum Illegitimi.”

Gonna do two Rocky Mountains and a pulpotomy in 45 minutes!

If I can finish these base plates today, Dr. Carter will let me deliver the dentures tomorrow.

No, Jerry, I didn't grade this . . . Mrs. Mitchell did!

Open just a little wider, I might be able to get my whole hand in.

You are now witnessing one of the Seven Wonders of the World ... the "Cozby Syndrome."

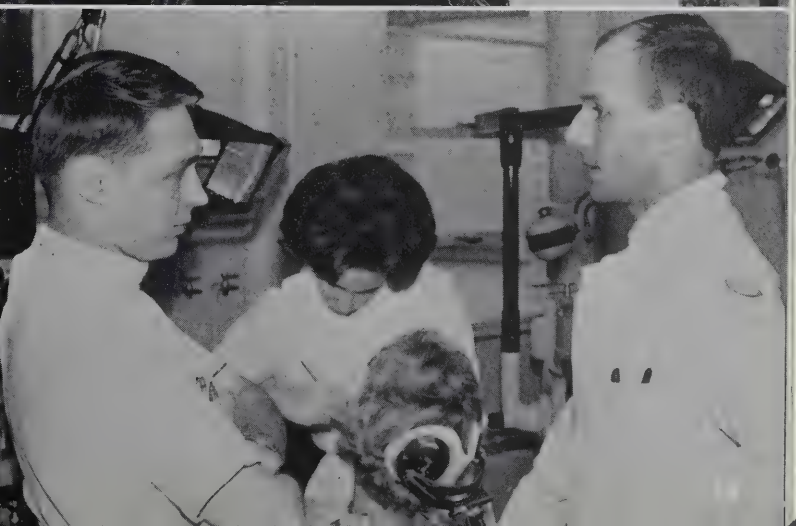

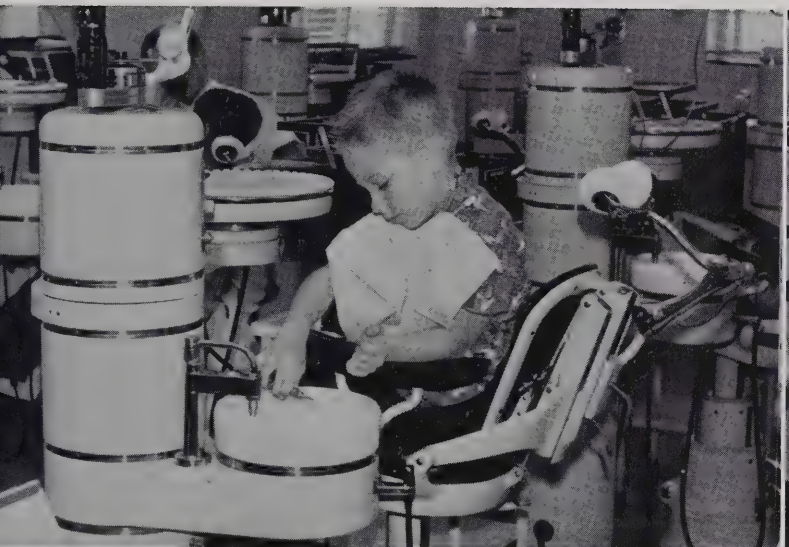

What is your prognosis in *extreme* cases of osseous surgery, Doctor?

Juniors

Whoops! Dropped my gum.
Itchy scalp?????

No, ma'am, that fella that just came out of the phone booth with the Big "S" on his chest works here.

Keith, are you shurrrrr those fun-ny leetle hats we 'ave to wearrrrr aren't French berets?

Just think . . . If it weren't for your ears how many germs you would spread!

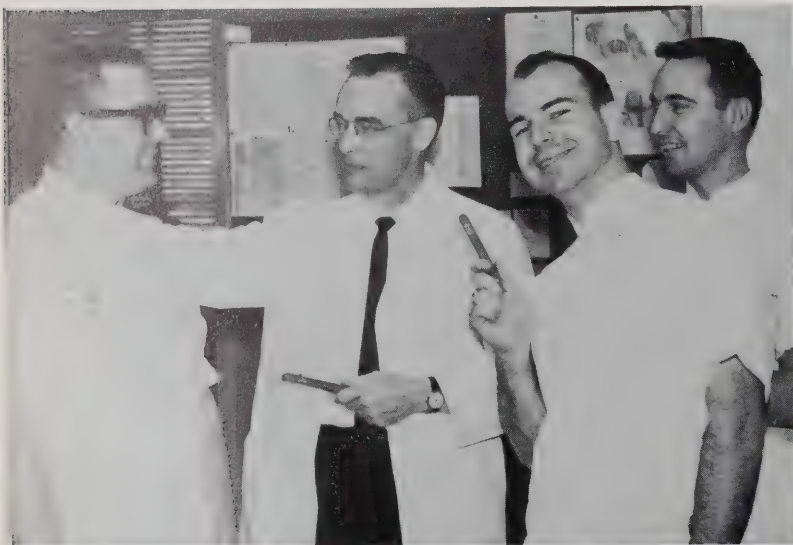

You ought to see him without his mask on.

Juniors

No thank you . . . but do you have any candy bars?
The Senorita's teeth are not good.

Bull!

I wish these mickey mouse watches had second hands.

Anybody need a fix?

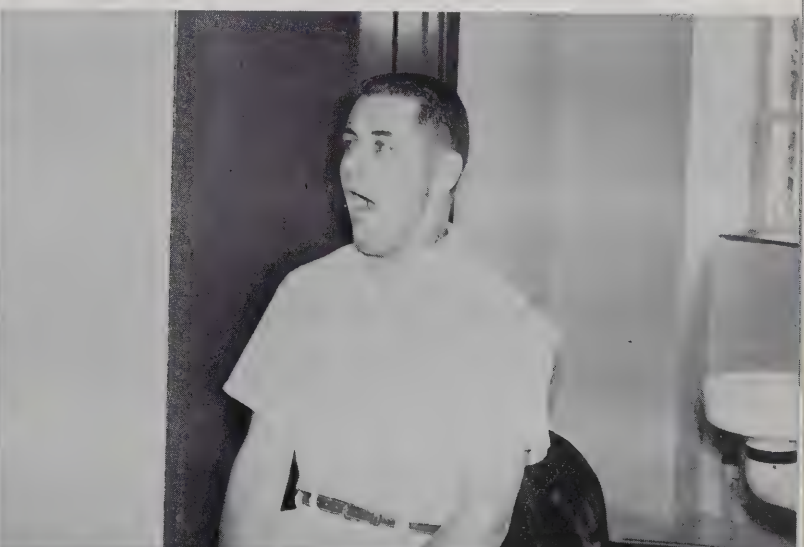

Which ten true or false will he ask this week?

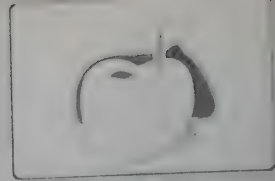

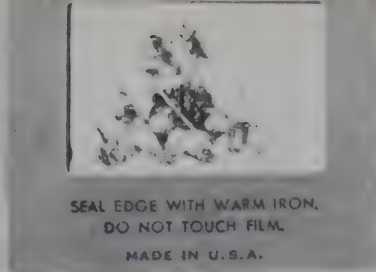

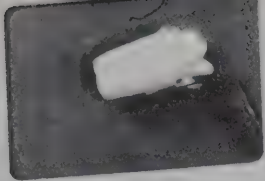

Juniors

Just time for an acrylic hors d'oeuvre between pack jobs.
Gee, I do such wonderful things for all these sweet little grannies.

Sure hope Nick 'n' Charlie solve the crab grass problem this year.

Fred carves up another charm for his wife while the ever-vigilant Tolbert looks on.

Bob Smith

Left to right: Bob Smith, Sam Elder and Tom Holton.

With eagerness and great expectations we the Class of '66 began the second step toward our chosen profession. Although we were still confronted with theory courses, this year the emphasis was stronger on technic. We encountered crown and bridge, operative and prosthetics. Many long hours were spent mastering these practical and necessary aspects of dentistry.

As with many things, however, this year contained a goodly amount of fun interspersed with hours of work and study. The fraternity affairs were refreshing moments of relaxation and gaiety. In fact, the judicious combination of studies and parties caused the months to speed by. May found us in the clinic, dressed in white and ready to begin the next step towards attaining our goal—the coveted D.D.S.

Top Row, left to right: Ed Smith, Jimmie P. Watkins, Robert Wasson, Ralph Carey, Sammy Elder, Roland Holman, George Ward, James Noble, Thomas Holton.

Bottom Row, left to right: Rudolph Woolf, Don Robison, Jimmie Roberts, Carl Ellis, Charles Murrel, William Breashears, Bill Merwin, Jon S. Ousley, Charles Rodman.

Sophomores

Below—Top Row, left to right: Robert Carmichael, Richard D. McNiece, Glenn E. Baker, David J. Hageman, James L. Greenwood, Charles K. Hill, Neill P. Clayton, Delbert Hale, Eugene Allen.

Bottom Row, left to right: Robert G. McCrady, Tommy J. Davidson, William H. George, Roland Leonard, Jerry Smith, William Kantz, Carl Foulds, Thomas Wilten, James Fricke.

Top Row, left to right: Jerry Hidlebaugh, William Anderson, Graham Wilson, Ralph Whitesides, John Porter, James B. Clayton, Bob Nelson, Kenneth Kimbrough, Tommy Howorth.
Bottom Row, left to right: James Stephens, Richard Turner, Olin Davis, Charles E. Jones, James Harrel, James Furlow, Ray Cox, Paul Panaceck, Dale Bailey.

Sophomores

Below—Top Row, left to right: Joseph Ainsworth, Ernest Moore, William Henderson, Michael Taylor, Richard Bendele, Gary Johnson, L. B. McCarley, Billy Green, Edward Menton, James Kelley.
Bottom Row, left to right: Robert Andrews, Robert Smith, Rene Holt, Jim Morrow, Howard Hudspeth, Max. E. Jones, Gerald McConnell, Bruce Dieterlen.

Top Row, left to right: Phillip Cuevas, William Knight, Robert Hughes, Don Morgan, Donald Chiles, George Safley, Willis Murphey.

Bottom Row, left to right: Bradley Wilson, Dan Broughton, Robert Groom, Patrick Moore, Clay Wetsel, Kenneth Killian.

Sophomores

Just think, my own work and it only took three months to complete.

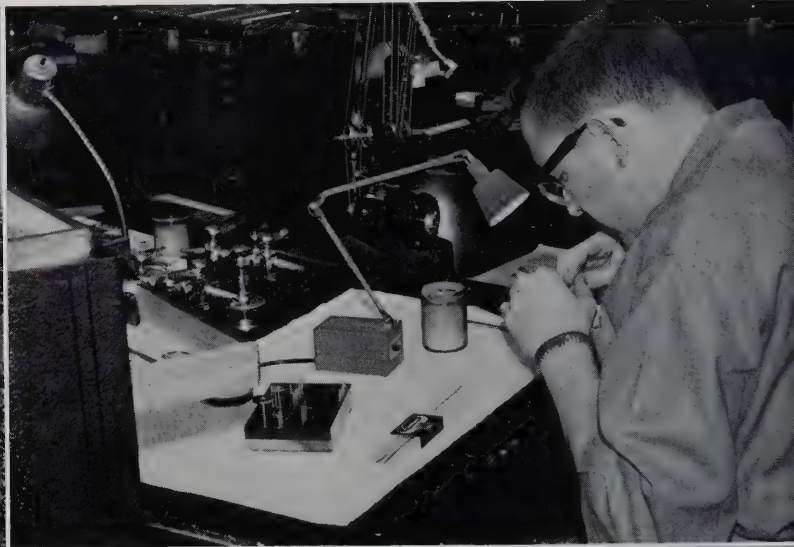

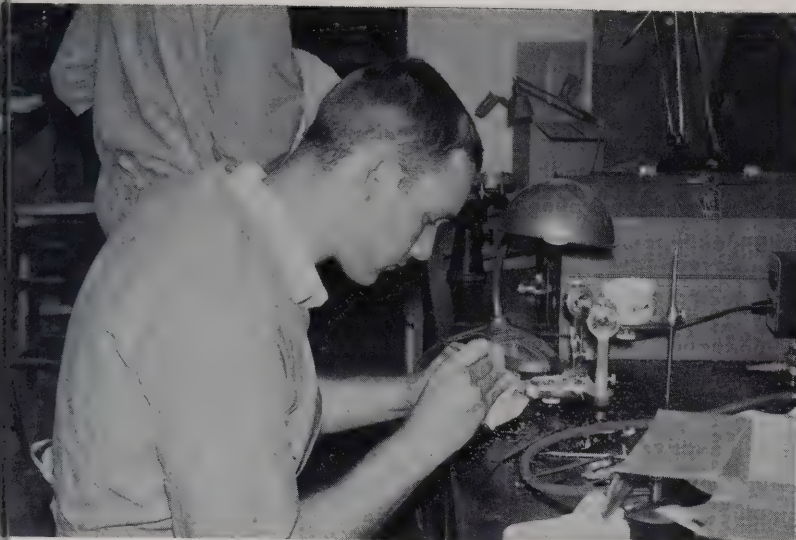

This is the basement . . . Would you mind sending down a giant Lactona.

Sophomores

Wake up, Willis, you're missing something.
Well, it's all over but the crying.

Neatness is the key to success.
This is a "playpen"?

Now I know this tooth belongs here, but how can I force it in.

This is the procedure for removing lingual tori?

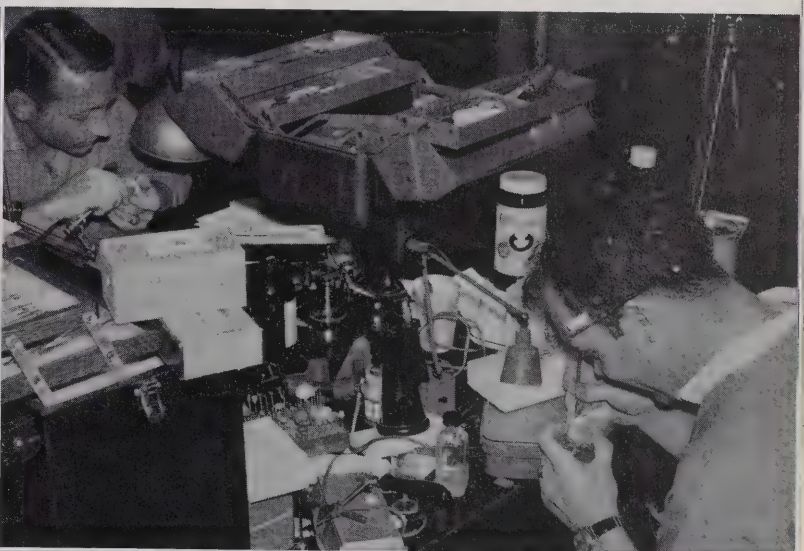

Sophomores

This would be a good preparation in operative, but in pedodontics, well—?

Where's the gold?

It takes brains to work in the midst of confusion.

What kind of grade is "G"?

Open, please, that's my finger you're biting.

I hope I can finish this manicure before class starts.

Sophomores

Will someone help me get my hand loose from this casting machine!

Guess which one didn't get his prophyl?

This, men, is the way a senior looks in class.

I think it will grow back.

If I could only get this spatula out of the wax!

The "Big Four" discussing the practical application of pedodontics.

Sophomores

Snap section.

In the little white brick schoolhouse . . . Readin', writin' and roentgenograms.

Don't unplug that oven.

This is good for a start, but with the next impression try to include the occlusal surfaces.

You've got to stay coooooool . . . man. Don't sweat the small stuff.

May we be excused, please?

Sophomores

Would you like to sample one of my arsenic-plastic pies?

I couldn't even recognize that it was a liver section!

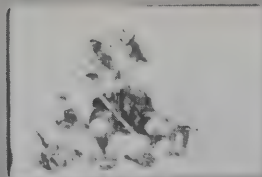

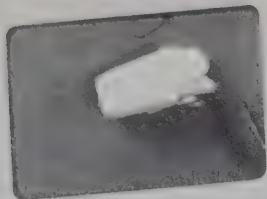

Gene and Joe racing off in prosthetics again.

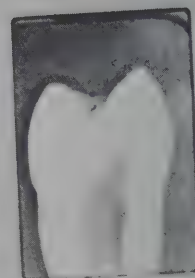

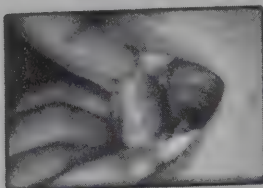

Clinic Rule #1 — Be sure to have patient check work with mouth mirror.

September brought the beginning of school and a new group of freshmen. Each of us was eager to begin the study of dentistry. No one will forget the first hot September day of registration with everyone nervous about the new surroundings. Soon the nervousness was lost and the days of the first trimester began to fly by. The experiences of the first day in anatomy lab and the beginning round of quizzes are still distinct in our minds.

The amount of new material continued to grow. We entered the second trimester having spent more hours studying every evening and making every moment count in school. With December the entire class looked forward to the oncoming Christmas vacation. The holidays passed rapidly and our location in the scenic cellar of the dental school protected us from the presence of the cold dreary weather that followed. Those cold winter days seemed to drag by ever so slowly.

What should have been the longest semester actually went by in a hurry. The highlights of the third trimester were: microbiology, the last of anatomy lab, the time the entire class scrubbed the floor of the anatomy lab and the feeling of closeness to the summer vacation. The urgency of exams caused increased concentration in the library, discussions in the Lynn, fast lunches, long study sessions and short nights.

In the remaining years at Baylor, this class hopes for a good relationship with the faculty. Realizing the importance of the profession for which we are striving, we know that as dentists and citizens we will have the confidence of a large part of the population. Since we will continue to reflect our background and our training, we hope to receive the most from Baylor in our next three years.

Top Row, left to right: Edward Bridgeman, Thomas David, George Blake, Jay Brown, Welley Bullis, Robert Carpenter, Michael Allen, Edward Allen, Hugh Burch, Edwin Dobbs.
Bottom Row, left to right: Ned Culp, Jerry Cole, Donald Blake, Michael Cohlma, John Baker, Richard Allen, Donald Butler, Stephen Cameron.

Freshmen

Below—Top Row, left to right: Michael Gardner, Michael Fetty, Gary Dougherty, John Garrett, Fred Grimes, Thomas Forney, Littleton Fowler, Don Flashing, Warren Guy.
Bottom Row, left to right: Richard Eaton, George Edwards, Benny Fleming, LaMonte Ford, Mary Ginderske, Thomas Graves, Robert Graft, W. A. Ferguson, Jack DuPuy.

Top Row, left to right: Carl Gene Hamil, Douglas Hinson, Donald Hampton, C. Joe Harrell, Bobby Don Leach, Richard Ingraham, Henry Hoffer, Roy Dee Kindrick, Michael Kerley.
Bottom Row, left to right: Jack Hulen King, R. M. Jackson, Richard Haught, Paul Kennedy, W. H. Jackson, Robert Honeycutt, James W. Holland, William T. Lee, Frank Hillard.

Freshmen

Below—Top Row, left to right: Paul Phillips, Ben McCrary, Jack Martin, Michael Lynch, William Oliver, Edward Pitt, Warren Randall, Carlton Sage, Ted Lewis.
Bottom Row, left to right: James Seamans, Bingham Martin, Klare McTavish, Dennis Miller, Howard Pangburn, Samuel Ray, G. A. Razook, Billy Maxwell, Joseph Leland.

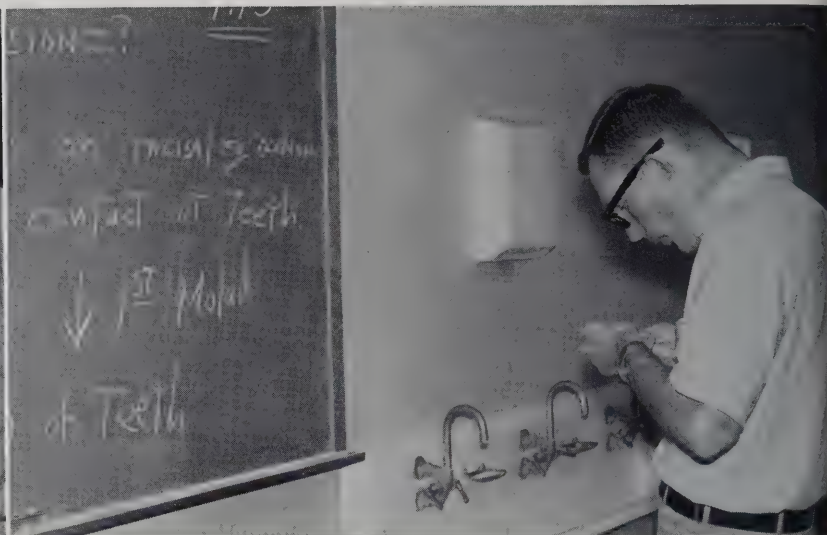

Top Row, left to right: James A. Snyder, James P. Stanley, Joe Whitley, Don Shipman, J. H. Stephenson, Chester Spencer, Charles Warlike, Jeff Woodson, Steven Watts, Truman Smith.
Bottom Row, left to right: David Stegall, Charles Stankewitz, James Sullivan, Roy Scott, Terry Watson, Bruce Thompson, Daniel Smith, John Triutt, Albert Tate.

Freshmen

The microbiologists.

Doug Hinson puts the finishing touches on.

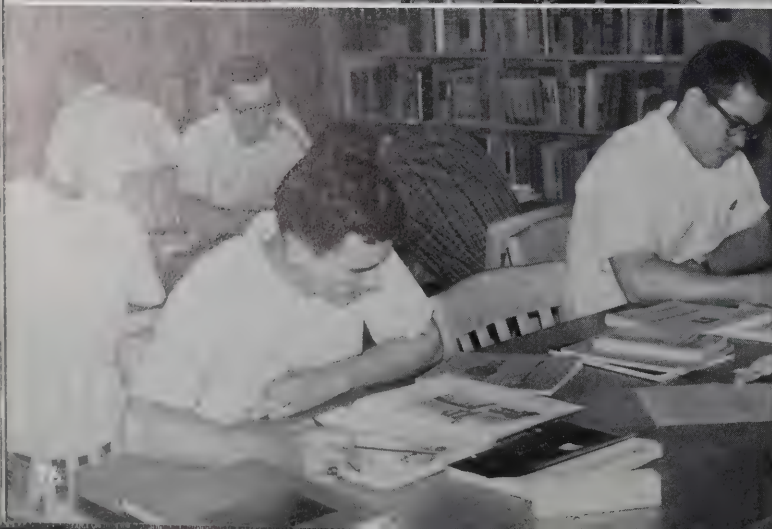

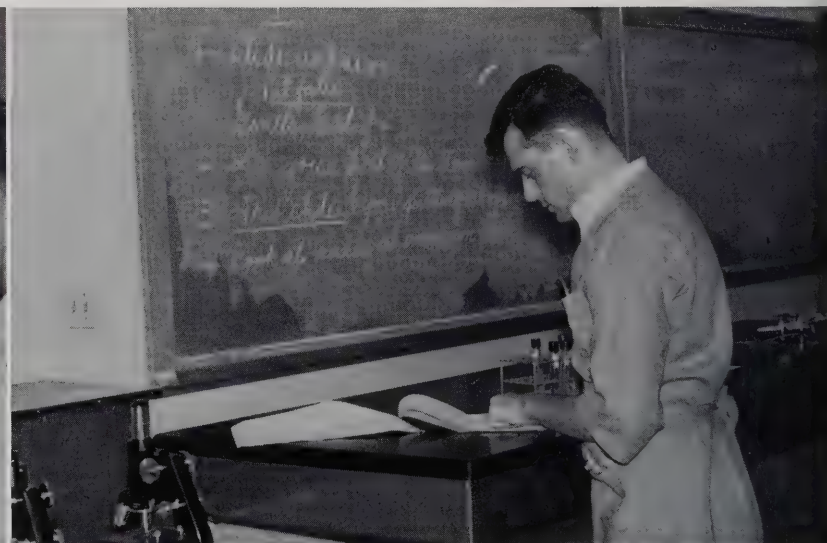

Freshmen

Ned Culp must have something good.

Warren Guy studies the reflex action of a seven-iron shot.

Joe Harrell checks the answer sheet.

Tom Graves and Bob Graf prove the old saying that one stocking makes strong lab partners.

Amazing. Stephenson is gram positive.

My part of the class had 47% fewer cavities.

Freshmen

Richard Ingraham and Mike Lynch get ready to quiz Klare MacTavish and Benny McCrary.

Playboy's anatomy? No. Ney's anatomy.

I can't see a thing.

Just a little more off the buccal.

Hey, Fred, why aren't you studying?

It must be a practical.

Freshmen

Which tooth will it be today?
Another good story by Roy Scott.

Yes, sir, Dr. Bookatz, that sure was a funny answer I had.
A well needed review.

The voice of authority must be speaking.

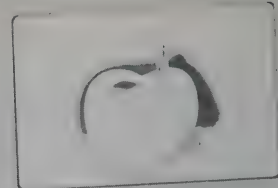

How did you know that?

Freshmen

Dr. Brown, why do you always have your arms folded?
A friendly little discussion.

Three conflicting opinions.
I just don't believe it!

Graduate School—College of Dentistry

Dr. Sol Haberman, *Director of the Graduate School*

Oral examination of graduate student. *Left to right:* Dr. Cornelia Smith, Dr. C. Kenneth Collings, Dr. Haberman, Dr. Dighton F. Rowan and Colonel William C. Hurt, Brooke Army Hospital.

Graduate School—Prosthodontics

Dr. Joseph P. Lambert, professor and chairman, with Dr. Arthur Olson and Dr. Rupert Mitchell.

Dr. Mitchell examines prosthetics patient.

Graduate School

Dr. Wilderman, left, professor of periodontology, Loyola, New Orleans, teaches graduate students in periodontology.

Dr. Reginald Pinet from Rhone, France, receives a certificate from Dean McCarthy for post-graduate study in periodontology.

Dr. C. Kenneth Collings, professor and chairman, with some of his former graduate students at graduate seminar. *Left to right:* Drs. Walter Cooper, J. Richard Hall, Joe Smith, Harold Meader and Paul Carrington.

Periodontology

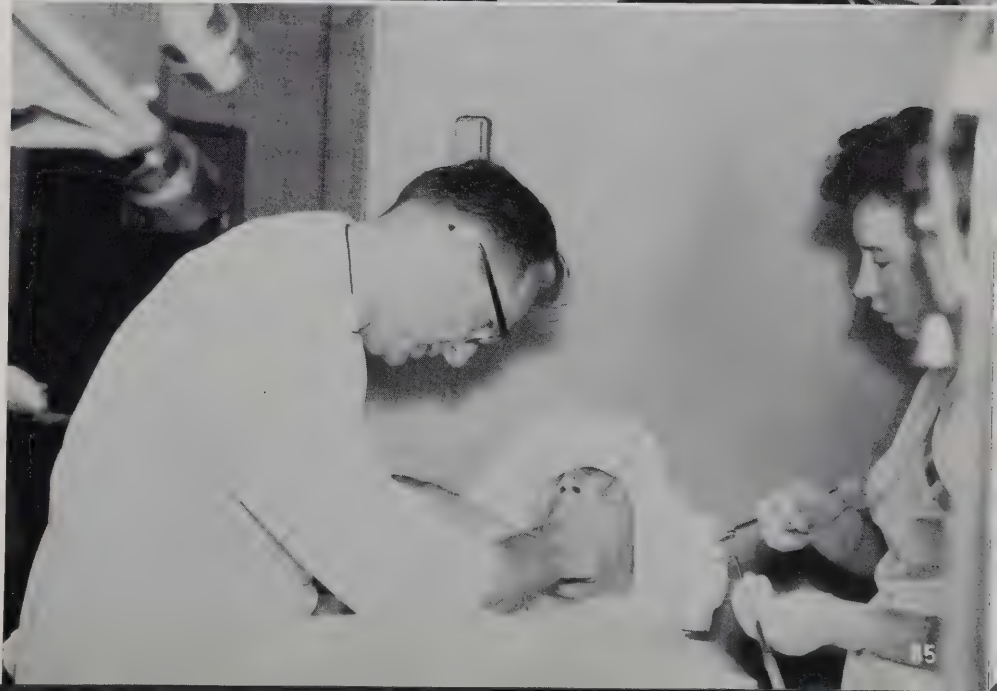

Colonel William C. Hurt, Brooke Army Hospital, gives special lectures to graduate students.

Dr. Robert Schafer helps an undergraduate diagnose periodontal disease.

Dr. Claude Nabers demonstrates periodontal surgery techniques on TV for graduate seminar.

Graduate School

Graduate Seminar on Pain—Left to right: Dr. Stephen Curtis, Dr. Robert Strader, Dr. William Gaither, Dr. Lee Getter, Dr. Welden Bell, lecturer and clinician for the course, Dr. D. Lamar Byrd, professor and chairman of the department, and Dr. Harvey Allen.

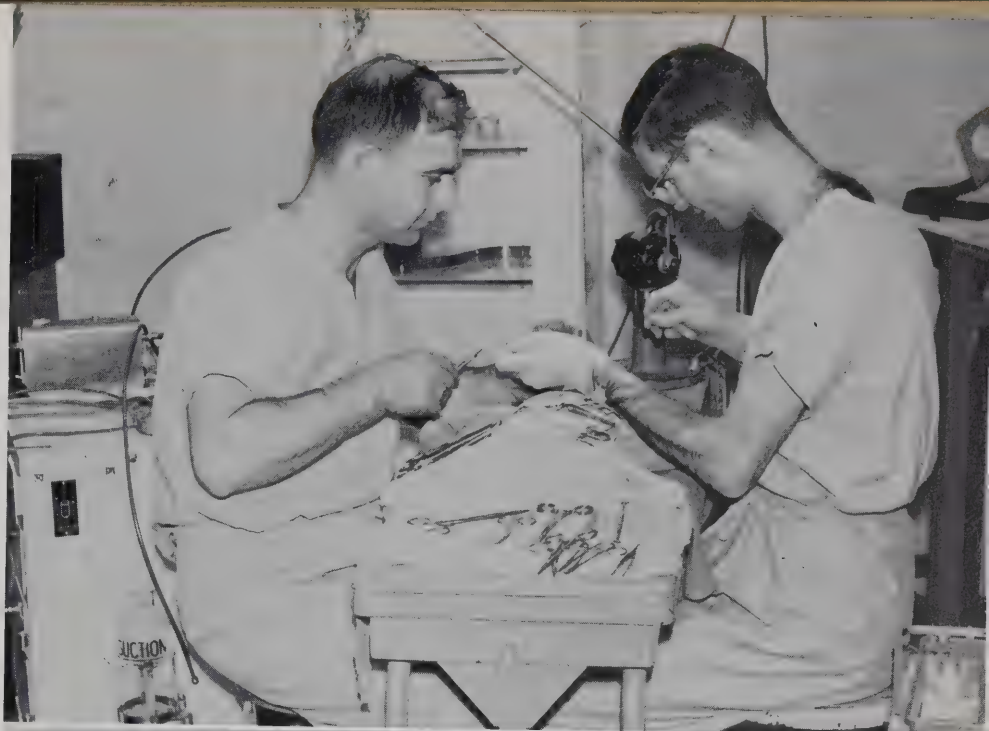

Dr. William Gaither with patient.

Dr. D. Lamar Byrd and Dr. Phelps Murphey present a clinic to graduate students on "Correction of Prognathia and Retrognathia by Osteotomy and Orthodontic Therapy."

Oral Surgery

Dr. Robert Strader and Dr. Harvey Allen do research in the healing of bone with hydrogen peroxide infusion.

Continuing Education Course in Oral Surgery. A luncheon honors Colonel Robert B. Shira, clinician. *Left to right:* Dr. Zimmermann, Dr. Byrd, Dr. Pearce, Colonel Shira and Dr. Roscoe Tipton.

Dr. Dennis Cantor, anesthesiologist, and Dr. Byrd discuss anesthesia difficulties of a patient with an ankylosed mandibular condyle.

Graduate Department of Orthodontics

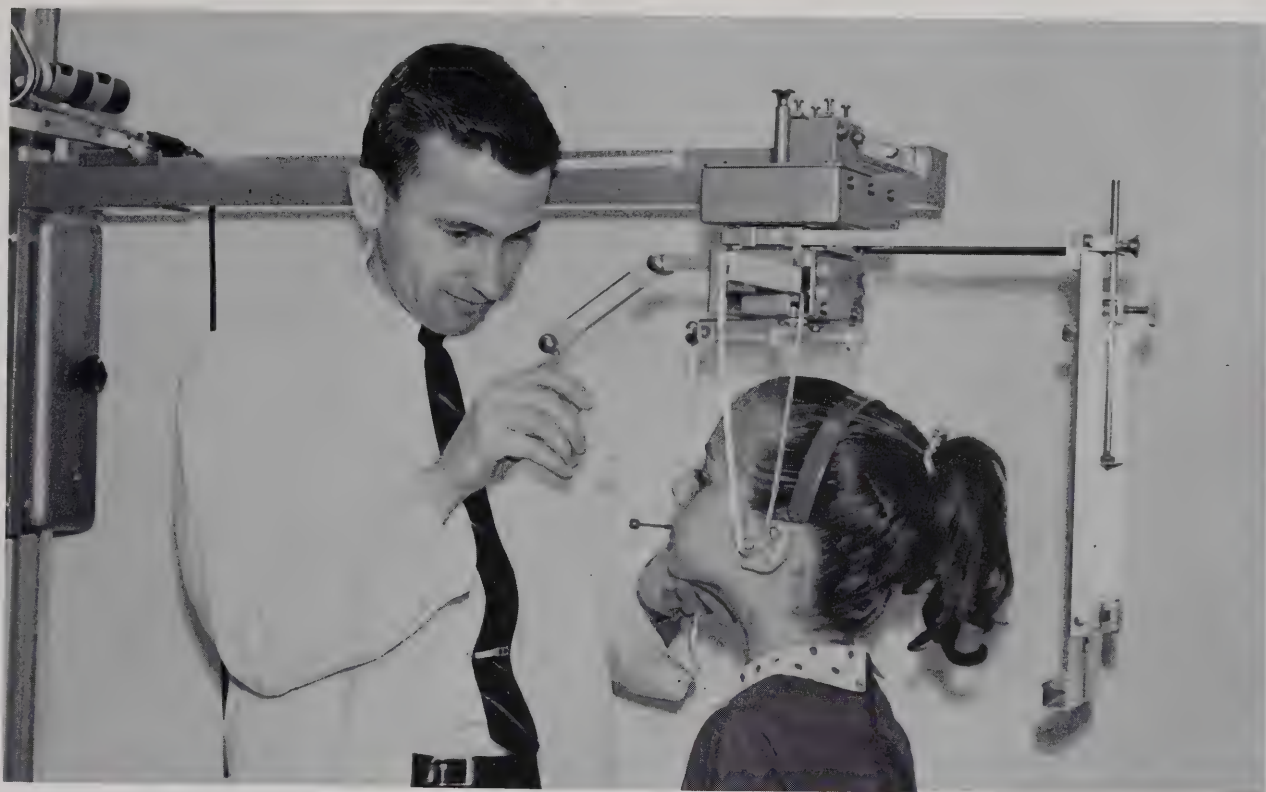

Orthodontics conference room. *Left to right:* Drs. Arthur Hawkins, Nan A. Wickwire, John Thompson, Dan Peavy, Leon Ireland and David Powell.

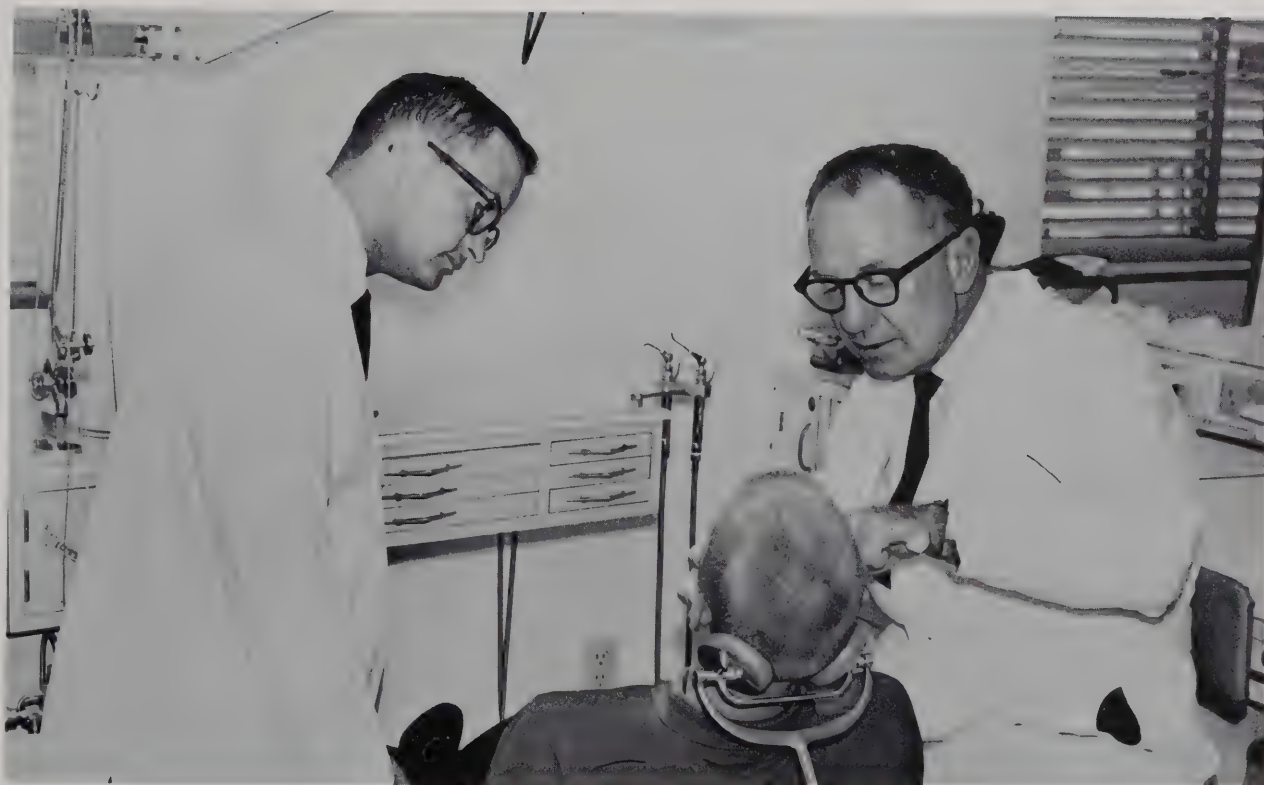

Dr. Charles Nichols, right, clinical assistant professor, checks the patient of Dr. Robert Deveny.

Graduate Department of Orthodontics

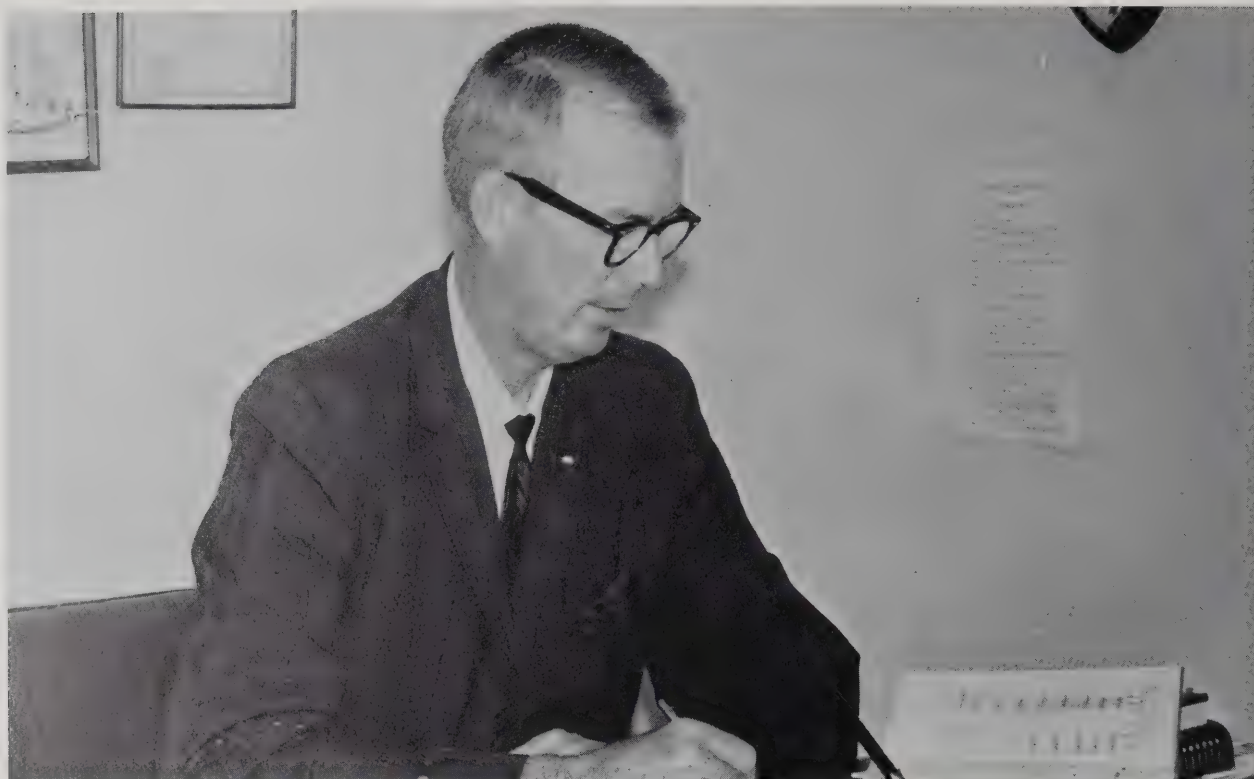

Dr. Alfred Whitely makes a cephalometric examination of a young patient.

Dr. Robert E. Gaylord, right, checks the progress of Dr. Glenn Rogers' patient.

Graduate School—Pedodontics

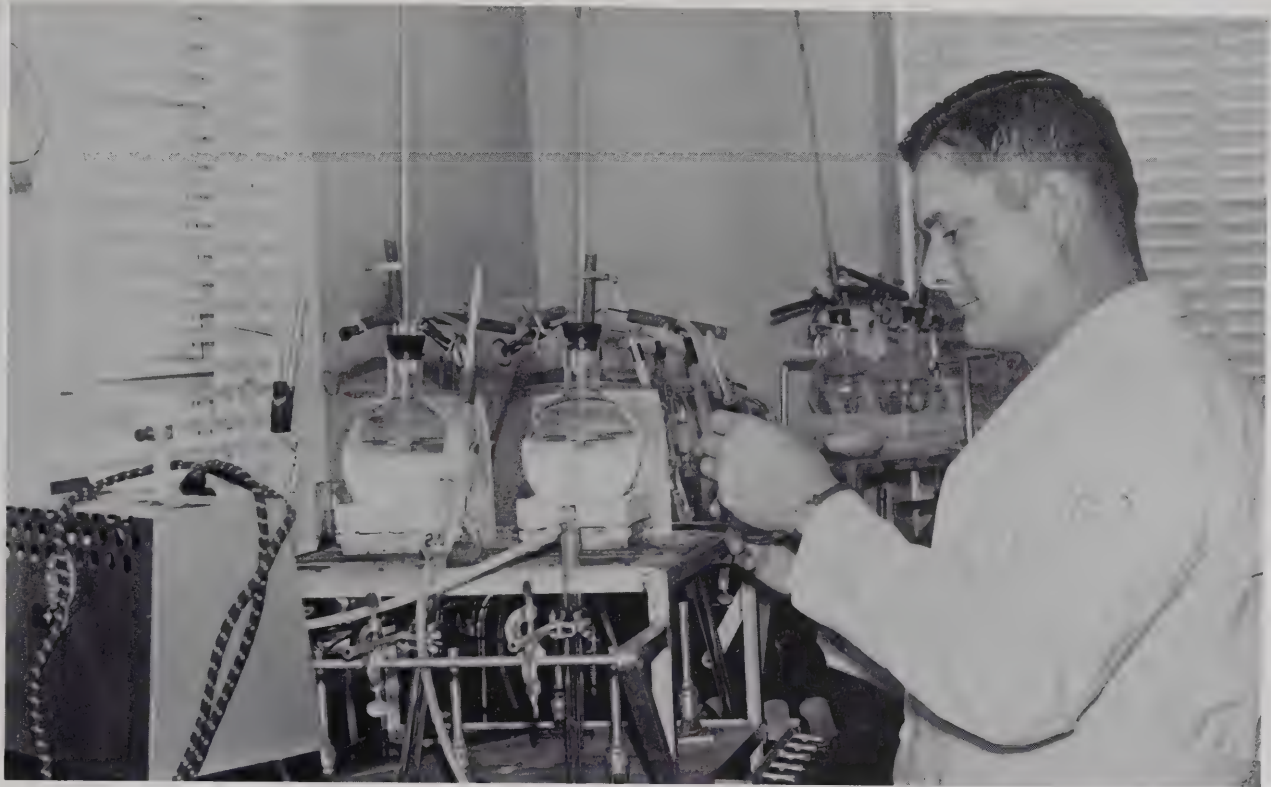

Dr. Paul P. Taylor, chairman of graduate pedodontics.

Dr. Don W. Haskins, left, graduate student, confers with Dr. Gene C. Huff, clinical assistant professor.

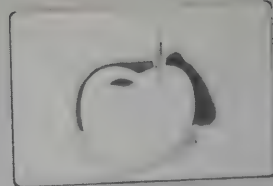

Graduate School—Pedodontics

Dr. William A. Saunders, graduate student, does basic study in chemistry department for his Masters Thesis.

Dr. Ronald McConnell, graduate student, observes the work of Ferrin Holcomb, senior student, in pedodontic clinic.

Dr. William H. Crook, president of San Marcos Academy, delivered the commencement address.

Dr. Pearce calls roll for the last time . . .

Commencement

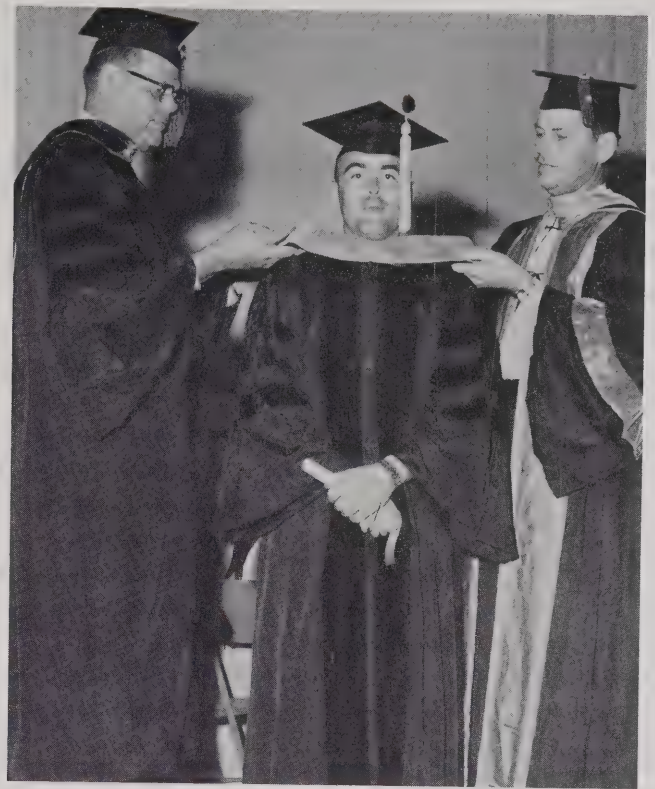

Dean McCarthy congratulates the recipients of the D.D.S. degree while Drs. Cox and Byrd hood the graduates.

Backstage . . . a flurry of confusion to put on

... with "diploma" names ...

After four long years . . . the diploma for the wall and a "hooding" picture for the family.

Exercises - 1964

alia and line up for the processional

Dr. Abner V. McCall, president of the University, Dr. Crook and Dean Harry B. McCarthy.

Commencement Exercises

PROGRAM

- Processional* Mrs. C. Lynn Watson
- Presiding* Abner V. McCall, B.A., LL.M., LL.D.,
President, Baylor University
- Invocation* J. R. Marcontel, B.A., B.D.,
Director of Student Religious Activities, Baylor-in-Dallas
- Solo, "Great Peace Have They,"* by Rogers Mr. Jack Kay
- Commencement Address* . . . William H. Crook, B.A., B.D., Th.D.
President, San Marcos Academy
- Presentation of Candidates for the Degree of Doctor of
Dental Surgery* Harry B. McCarthy, B.S., M.A., D.D.S.
- Conferring of Degrees* President McCall
- Presentation of Candidates for the Degree of Master of
Science in Dentistry* J. D. Bragg, Ph.D.
Dean, Graduate School, Baylor University
- Conferring of Degrees* President McCall
- Presentation of Candidates for Certificate in Dental
Hygiene* Ruth R. Swords, B.A., B.S., D.D.S.,
Director, Caruth School of Dental Hygiene
- Presentation of Certificates* President McCall
- Benediction*
- Recessional* Mrs. Watson

The audience will please remain seated until the procession has left the Church.

The names of the graduating dental students and dental hygienists will be called by Doctor Charles M. Pearce, Jr., Professor and Chairman, Department of Oral Diagnosis and Roentgenology.

Commencement Exercises

UNIVERSITY HONORS

University Gold Medal — Thurman J. Beene, Jr.
Scholastic Honors — John Lloyd Kennedy
Scholastic Honors — Tommy Lee McCreight
Scholastic Honors — James Waldo Wilcox

ELECTED TO HONORARY SCHOLASTIC SOCIETY OMICRON KAPPA UPSILON

DONATED BY THE INTERNATIONAL COLLEGE OF DENTISTS
James Waldo Wilcox

MERRITT-PARKS AWARD IN PERIODONTOLOGY
Gerald Frank Prohaska

DONATED BY THE SOUTHWEST SOCIETY OF ORAL SURGEONS
John W. Allen

DONATED BY THE TEXAS ACADEMY OF GENERAL DENTISTRY
Joe A. Starr

*Recipients of all awards are selected by the faculty and teaching staff.
We are grateful to the above organizations and individuals who have
helped to make these awards possible.

Like father, like son.

Sheryl with her best beau, Captain Myers.

The army dentists take their oath from Dr. Pearce.

The naval officers are duly sworn in.

Quite a resemblance . . .

. . . among 20 present.

It all started here four years ago.

In addition to scholastic honors Jim Wilcox can say "Thank you, Doctor" in Nigerian.

Graduation Luncheon . . .

Dr. Alton B. Lee, registrar of the University, asked, "How is your new grading system?" Mrs. Scott replied, "Well . . . er . . . er . . . a . . . er . . . a"

Three of Baylor's guiding hands, Dallas Executive Board members Mr. Clifton Dennard, Rev. Bruce McIver, and Mr. Donald Bowles.

During the study . . . these nine dentists used not only the same toothpaste . . . but the same brush!

Drs. Rodney Mitchell, Joe Smith, Joel Goodwin and Pearce hold a short alumni meeting.

"A recent scientific survey held at a Dental College showed that" . . . this group had 20% fewer teeth.

On camera . . . Dean never misses a shot.

. . . or Dinner on the Grounds

Dr. Daniel W. Walker, honored as a 50th anniversary graduate, chats with Dean McCarthy and his son, Dr. Daniel Gordon Walker, '51.

Grey matter pays off—with or without a pipe!

When "Academy" awards are handed out, a "Starr" is born.
The "Baylor Body Shop"—Corpus, Inc.

Eight and three-fourths pounds of regalia. About the time you learn to wear them properly, they ask for them back.

Shore and Skaggs have reached the high water mark.

Graduation

Is it only a friendship?

There remains a stern look of disbelief on the faces of some graduate students.

Regardless of when it is held, graduation always falls on the warmest day of the season.

Special to the Albuquerque News—"Hometown boys make good after almost 20 years of education."

What did you get, preacher?

It's what's in the envelope that counts!

Announcement Day

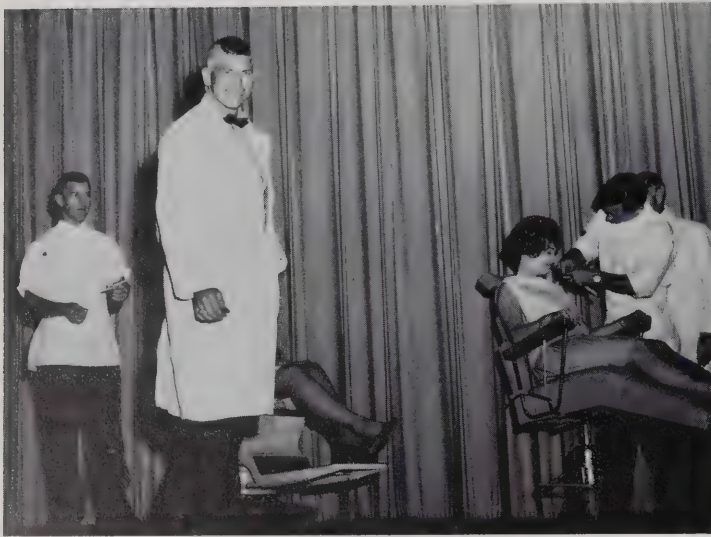

Johnston anxiously awaits the big news.

Let's not let them think we're too enthusiastic!

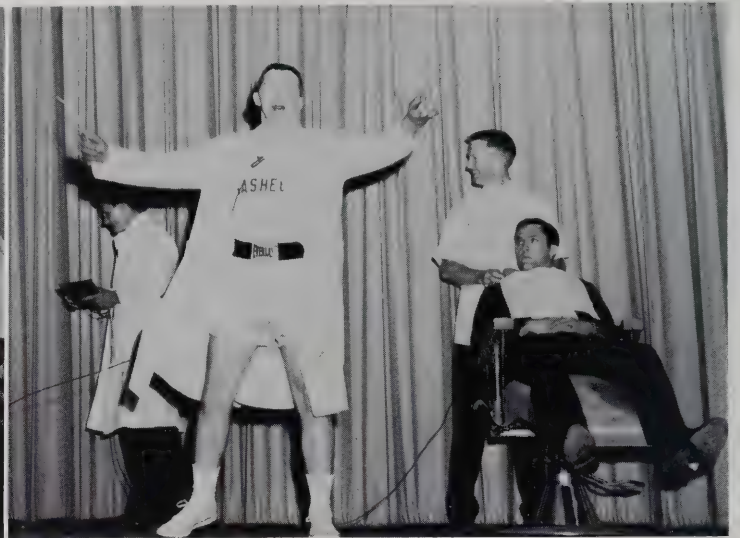

Guess who just won the Century Club Award?

Somebody up there likes me.

What do you want, ole Buddy?

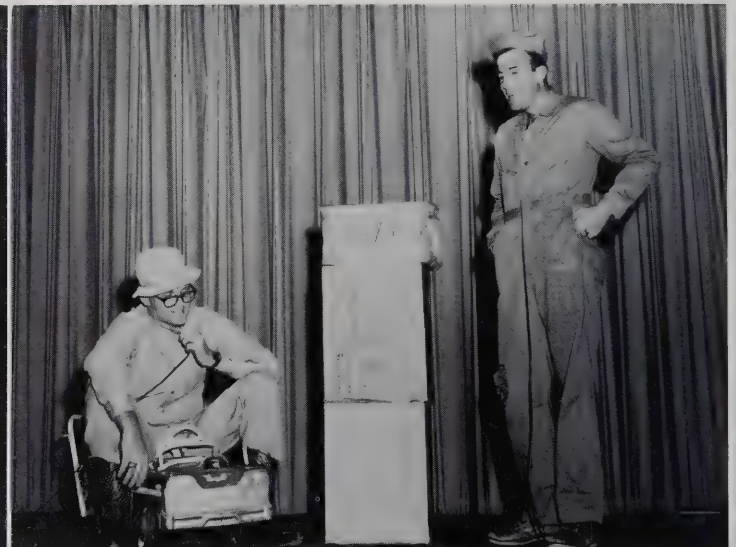

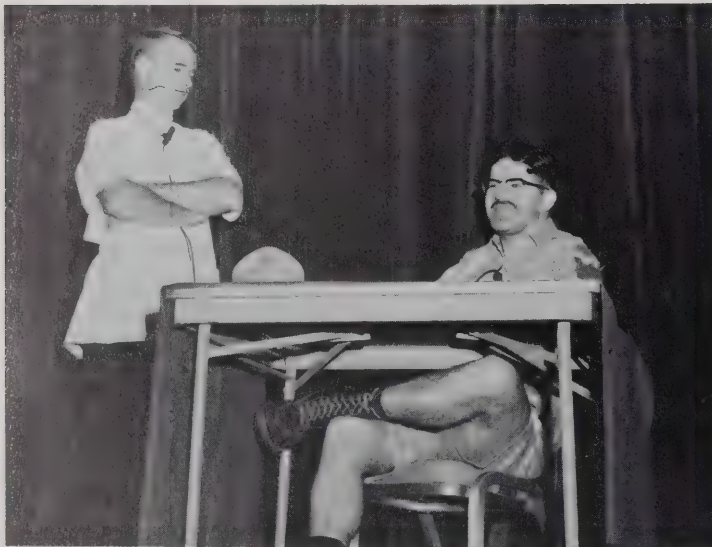

Up! Up! And away! Super Dentist flies again.

Senior Skit

By the way, how did you know I used to be in the service?
Sandra, who's been using my coffee cup?

I don't care; it gets 50 miles per gallon.
Close supervision never hurt nobody.

Tall Paul, get your horse out of my clinic!

Don't worry about little things, get that @##!*##! tooth out.

Senior Skit

Tex, tell the folks about your secret desire to be a drummer.

If we had to do this for a living we would starve!

Leave two quarts of milk and some cream, too.

When he checked my foil he said, "Doctor, what would you do in a private practice?" I said, "Doctor—a full crown."

State Boards

What do you mean, turn in my button?

Keep your eyes shut, open your mouth wide and don't scream.

Well, Waldo, can I go back to Africa with you?

It wasn't funny; you can just leave my picture out of this year-book.

Aggies always look neater.

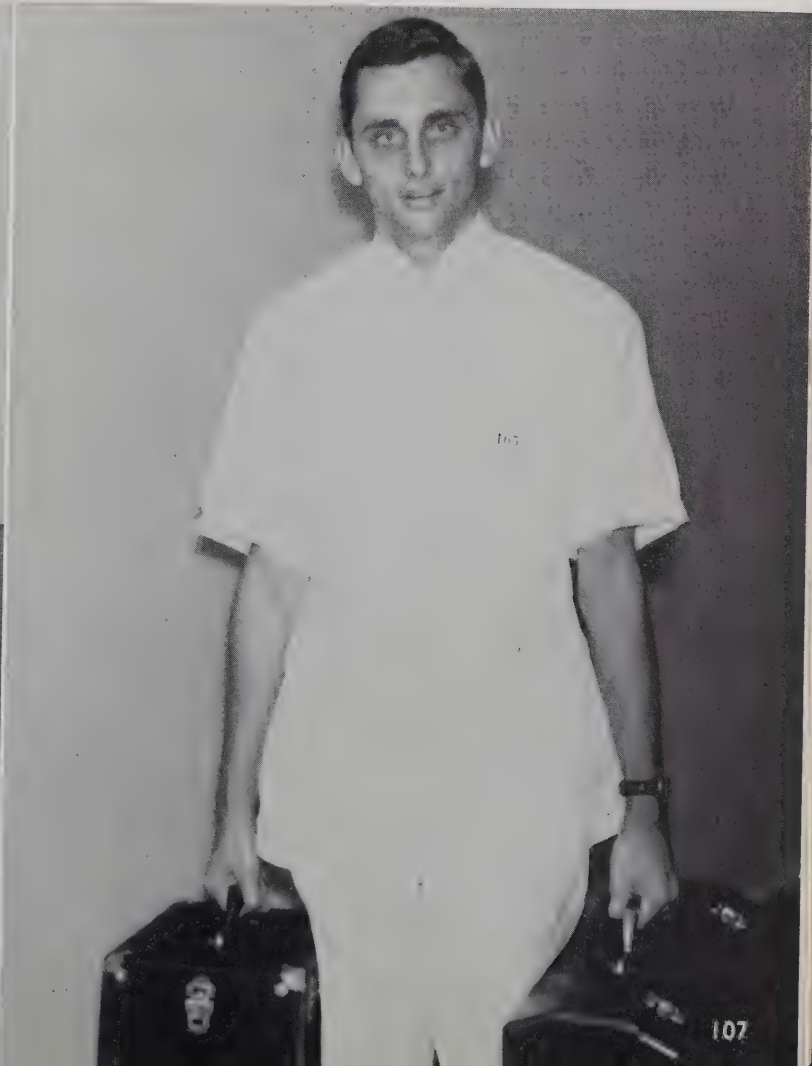

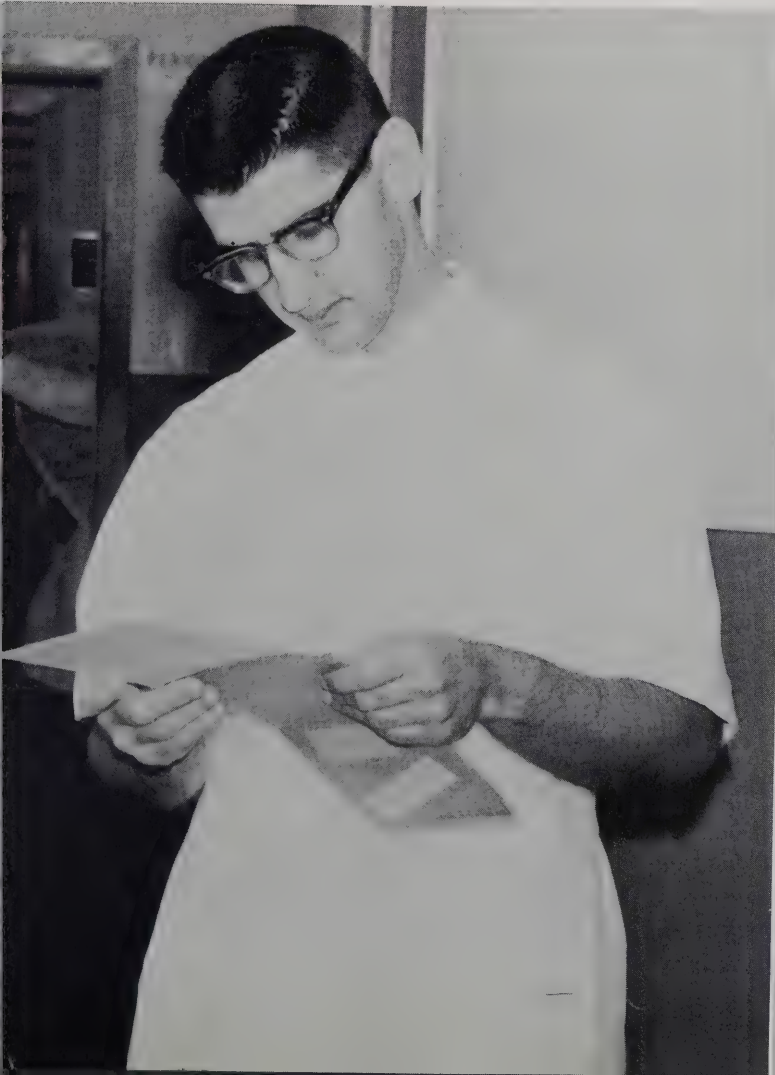

Super surgeon's last bridge.

State Boards

I can't figure how I missed that check.

How did he ever get them off the ground?

Student Religious Activities

President
Mickey Walker

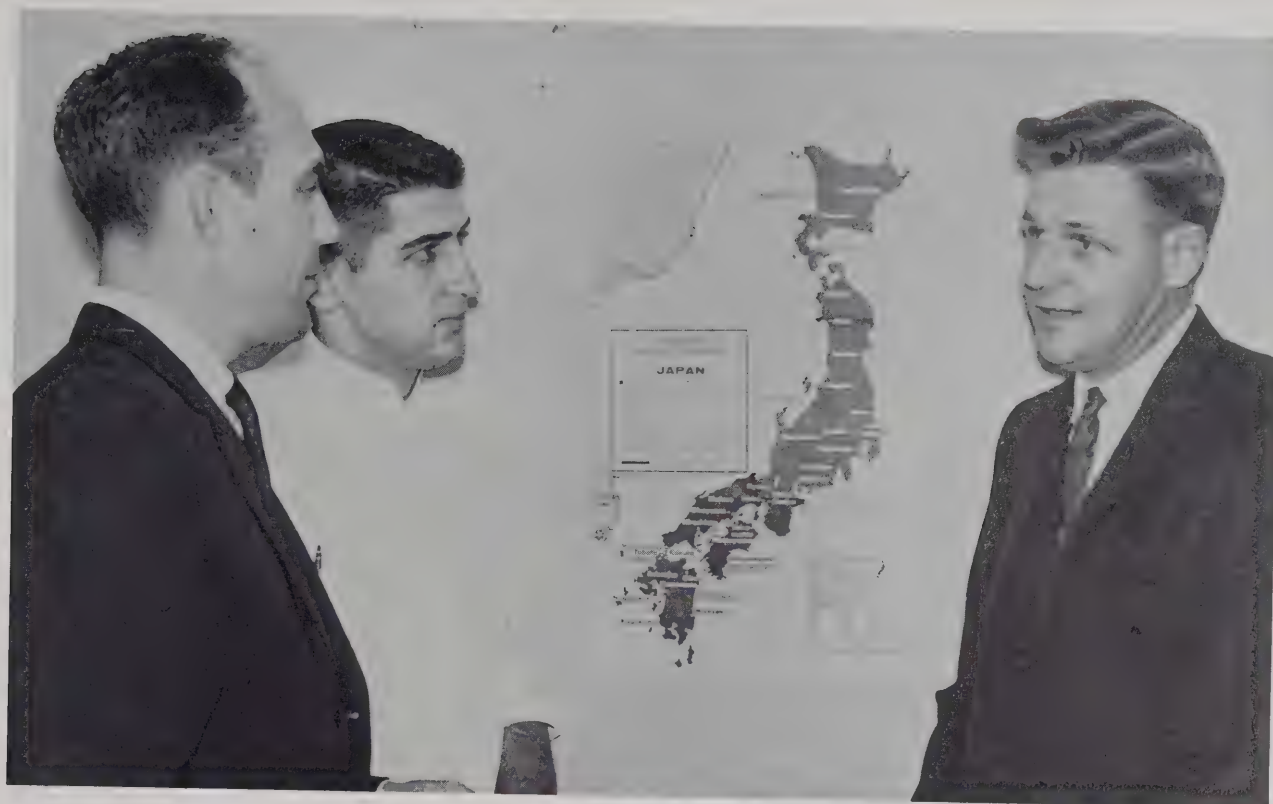

President
Mickey Walker
Vice President

Jim Wilcox and Randy Peach
Devotional Chairman
Jim Burk
Secretary-Treasurer
Gay Wilson
Social Chairman
Ray Cox
Publicity Chairman
James Bolton
Missions Chairman
Clark McCoy
Music Chairman
Gene Allen
Denominational Representative
Jack Daggett
Married Students Representative
Sammy Elder
Pastor Advisor
Dr. Harold Basden
Faculty Advisor
Dr. Albert Staples

Student religious activities are planned and projected by an Executive Council with the help of various committees. The Council members are: *Seated, left to right:* J. R. Marcontel, Dr. A. L. Staples, Gay Wilson, Randy Peach. *Standing, left to right:* Jim Bolton, Ray Cox, Mickey Walker, Jim Burk, Jim Wilcox, Sam Elder, Gene Allen.

Student Religious Activities

Believing that professional competence is more than scholastic accomplishment, the College of Dentistry provides opportunities of spiritual development within the framework of the academic disciplines.

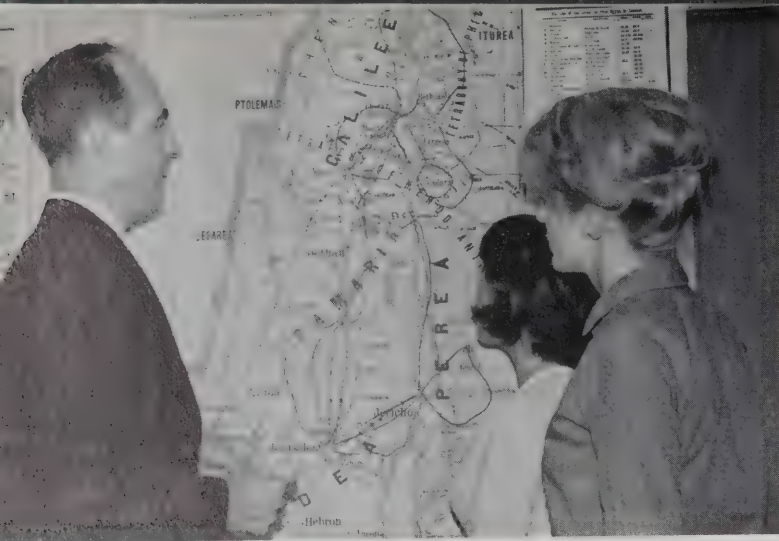

In order that this objective might be realized, the Student Religious Activities of the campus are channeled through the Baptist Student Union organization. A balanced program of religious activities on the campus was maintained as the students sought to plan around the core areas of B.S.U. These areas are Enlistment, Worship, Study, Missions, Evangelism and Christian Fellowship. These core areas were carried out during the past year through the freshman luncheon, Chapel services, personal counseling, religion classes, study groups, social activities and retreats.

Dr. Duncan Blades, right, of Houston, while at the Dental College for lectures to graduate students in periodontology, shares some of the highlights of the New Life Movement he participated in as a layman in Japan with J. R. Marcontel and Mickey Walker, senior Dental Student.

The Dental Chorus gives students an opportunity to sing and make their own contribution to Dental Chapel. Jack Kay, Minister of Music at the Gaston Avenue Baptist Church, directs the chorus in a Christmas anthem.

In order to produce a well educated and well trained hygienist a New Testament Survey course is a part of the curriculum of the school. An understanding of the background, purpose and content of the New Testament are the objectives of this course.

Bible study and discussion groups are a part of the program of the B.S.U. Subjects of both classical and current interest are discussed among small groups.

Student Religious

Left, Introducing the students to local pastors of their denomination is an important aspect of the Student Religious Activities program at The College of Dentistry. J. R. Marcontel introduces Dr. Harold Basden, pastor of the Gaston Avenue Baptist Church, to freshman W. A. Ferguson on registration day.

A friend and counselor to students is a part of the work of the Director. The need for someone who will listen and counsel is felt by students.

Christian fellowship is a part of the Student Religious Activities program and brings students to a time of relaxation and recreation.

Medical and Dental missionary information is kept current with a periodic visit by a missionary. Jim Wilcox took such an opportunity to introduce freshman Tom David to Dr. and Mrs. Wayne Logan. Dr. Logan, an alumnus of the College, and his wife serve in Nigeria.

Missions is one area of student life that looks beyond the campus. Jim Wilcox, Texas B.S.U. Summer Missionary to Nigeria in 1963, demonstrates some Nigerian jewelry to Susan Welker as Joe Smith and Jim Burk look on.

Activities

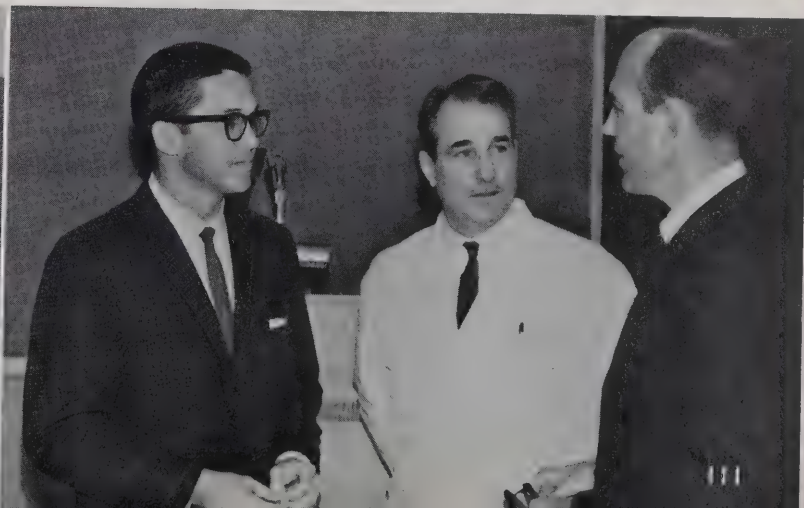

Right, introducing students to local clergymen is an aspect of Student Religious Activities. *Right to left:* Dr. J. L. Matthews, professor of Histology, and Rev. Harold Hughens, Youth and Activities Director of Park Cities Baptist Church, chat with a student. Also pictured are Richard Champ and Rev. R. L. Herring of the Lakewood Baptist Church.

Choral groups sing for school functions as well as programs off the campus. With selections of religious and secular music, the musical program provides relaxation and an opportunity to work with a well qualified director.

Worship opportunities are planned by the council. In addition to retreats and conferences, weekly chapel services are planned. Rev. Harles Cone, Division of Student Work, Baptist General Convention of Texas, guest chapel speaker, talks with Dr. George Foote, professor of prosthetics, and J. R. Marcontel.

Delta Sigma Delta

Grandmaster

Treasurer
James Watters

Left to right: Jack Kennedy, Lief Isaacson, Stephen McKeever and James Watters.

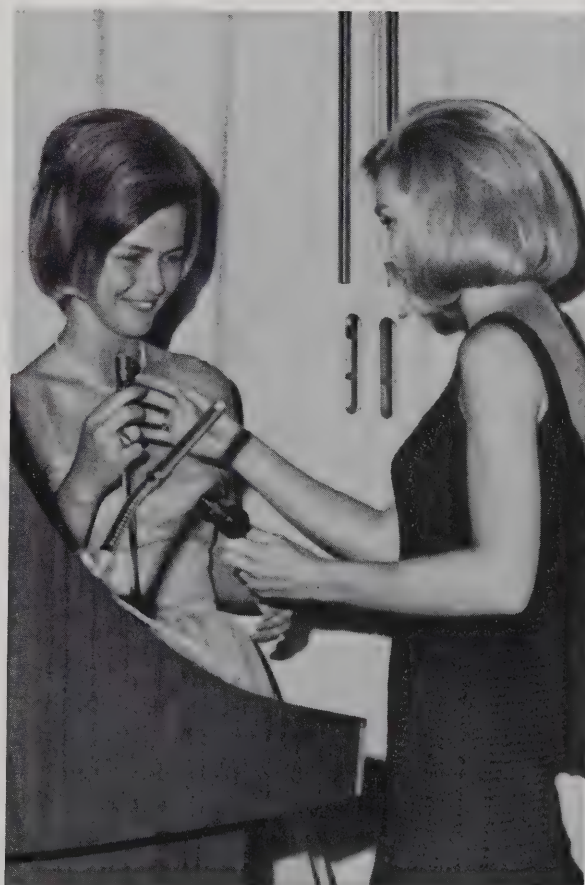

The 1963-64 year was enriched by interesting, educational and social experiences for the members of Delta Sigma Delta fraternity. Rush events, interfraternity programs and monthly socials took us to many of Dallas' nicer hotels and clubs for merrymaking. Well attended table clinics and seminars were also held to demonstrate the multi-faceted aspects of the dental profession. In addition, our monthly meetings afforded opportunities to meet and listen to interesting, informative speakers lecturing on a variety of subjects. Concluding the eventful year was a gala formal dinner dance at Holiday Inn where awards were given and new officers welcomed. Next year promises to hold even broader horizons for Delta Sigma Delta.

The Seniors—their wives and dates.

Barton Thompson accepts the gavel from Jack Kennedy.

Linda Smith receives the corsage from Linda Watters.

Dr. Natoli—alumni president.

Jack Kennedy receiving a scholastic award.

Psi Omega

Grandmaster
Taylor Evans
Junior Grandmaster
Terry Noble
Secretary
Don Lance

Left to right: Jim Beaver, Taylor Evans, Terry Noble, Don Lance.

The Delta Psi Chapter of Psi Omega, founded in 1920, is the oldest and largest dental fraternity on the Baylor campus.

This past year has been a most enjoyable one for the members of Psi Omega. Our rush was very successful, bringing forty-nine new men into membership.

The monthly parties enjoyed by Psi Omegas varied in dress: formal, semi-formal, casual and costume. Parties were held at the Dallas Yacht Club, Preston Hollow Country Club, Psi Omega Fraternity House, Sheraton-Dallas and the Adolphus. Numerous other casual parties and stag affairs were added from time to time.

Our monthly meetings were, as usual, well attended. Programs included various films and table clinics, talks by members of the faculty and demonstrations by experts in other fields such as judo and karate.

At the spring formal two outstanding alumni, Dr. Lund and Dr. Stout, were presented awards. The new members received their jeweled pins, the seniors their Psi O diplomas and the wives their Distaff Achievement Awards. Various other pins, keys, plaques, trophies and awards were presented to outstanding members of the fraternity.

We are looking forward to the ensuing year with great expectations and plan to make it an equally successful and enjoyable one for Psi Omega.

Grandmasters—past and present. Taylor Evans and Terry Noble.

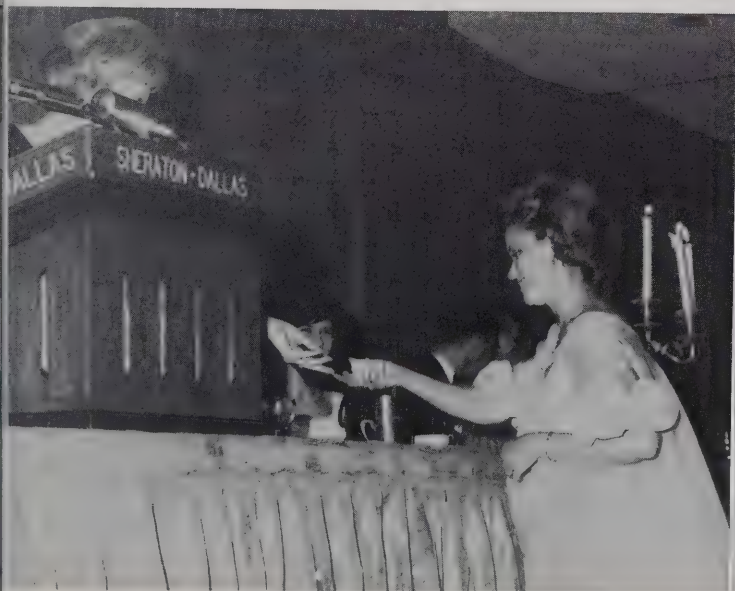

Pat Tate—Outstanding freshman wife.

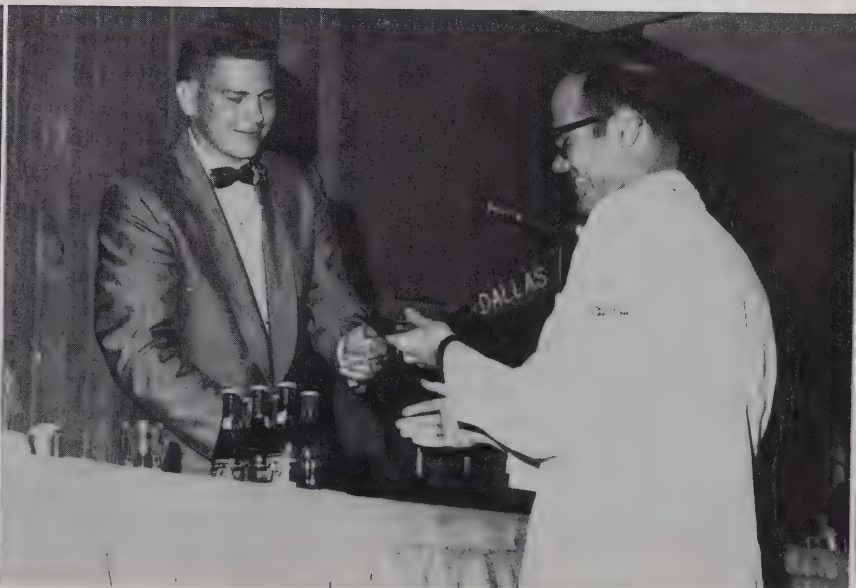

Jim Johnston—Outstanding senior.

Don Hampton—Outstanding freshman.

Jimmie Watson—Outstanding senior wife.

Jim Wilcox—Senior scholarship award.

The 1963-64 school year just ending must surely make us feel that we are a part of a large circle, since a circle has neither beginning nor ending. It was not just the beginning for the new pledge class, and not the ending for the graduating seniors. The starting for the pledges must have occurred with the first thoughts of selecting a life's work; for the seniors it will end only when their individual goals in life are realized.

We in Xi Psi Phi fraternity regard success not as a destination but as a journey. Our fraternity was a series of successes this year as we enjoyed all the facets of fraternity life.

Fraternity activities have two aspects: educational and social. The educational aspect is achieved through monthly meetings with guest speakers and clinicians lecturing on a wide variety of topics. The social aspect involves a monthly party. We first met the freshmen at a lake party, followed by a mid-week smoker at the Holiday Inn. Rush week was terminated with a Levee Party. Other monthly socials included the pledge welcoming dance at the Executive Inn, the IFC party at the Adolphus Hotel, a beatnik party, a fishing trip, and, finally, the Red Rose Spring Formal and Banquet at the Crystal Ballroom of the Baker Hotel.

The contribution of the Wives' Club was most worthy of mention. Not only did the club lend able assistance in the planning and preparation of social functions, but also carried out its own projects. For their Christmas project the wives presented a well supplied Christmas basket to a needy family. They also held a rummage sale to raise money for their activities.

For most of us the big circle is still unbroken, and we can look forward to another success-filled year of fraternity life.

Interfraternity Council

Seated: Drs. Stout, Bouschor and Pierce.

Standing: Taylor Evans, David Sailor, Jack Kennedy, Larry Wilson, Terry Noble, Lief Isaacson.

The Interfraternity Council was founded by the officers of Psi Omega, Delta Sigma Delta and Xi Psi Phi to promote good will and brotherhood among the three fraternities. The IFC controls and regulates important matters such as rush expenditures, pledging, rush week activities and fraternity life in general on the Baylor campus.

The IFC brings the fraternities at Baylor together socially, as well as professionally. This year the IFC sponsored two dances—a “Welcome to Baylor Dance” for the incoming freshmen and a “Christmas Dance.” These parties were well attended by all fraternities.

The Snow Tooth

When patients canceled their appointments, a group of seniors made a huge snow tooth, toothbrush and tube of toothpaste on the lawn between the Dental College and the hospital.

The newspapers printed a picture of it . . . television covered it . . . many groups were photographed with it . . . and, in one instance, the hygiene students even received credit.

Passersby stopped to view the tableau, or take pictures. Perhaps the greatest impression was made on the younger generation who wanted to see whether or not the tube really had green toothpaste.

The true fabricators failed to receive credit for their public relations achievement. As the snow began to melt, the original sculptors returned to prove their professional interest by checking the tooth for cavities.

Case History

Figure A

Figure B

This twenty-five-year-old white male was first admitted to Baylor Dental College in an ambulatory state in September, 1960. On admission, the chief complaint was a dumbness in the area of dentistry. Family history concerning the problem was negative. Past history included four years of confinement at Baylor University in Waco in preparation for his treatment at this institution.

On release from the institution in Waco Dr. McCarthy and staff agreed, after much pleading and persuasion by the patient, to undertake the solution of the problem here.

During his first year at BDC, Drs. Biggs, Wagner and Matthews attended to gross abnormalities present in the anatomical, biochemical and histological makeup of the patient. The above photographs were taken, respectively, during and after completion of an oral anatomic evaluation by Dr. Biggs which proved to be a complete failure. (See Fig. A and Fig. B).

During his second year the patient had been suffering from acute pathological and physiological insufficiency most of the year (Allbright's Syndrome, etc.). Mr. Smith from the Baylor Hospital Pharmacy, suggested an approach to the problem

Figure C

Figure D

which included the use of suppositories and saline enemas in an effort to uncloud the patient's mind, thus rendering him more susceptible to the implantation in his cranium of basic scientific and technical data. After consultation with Drs. Bishop, Zimmermann and Hill, however, it was decided that oral surgical procedures should be instituted, at which time permission was granted from Dr. D. Lamar Byrd and this photograph was taken. (Fig. C) The oral approach proved to be unsuccessful, and the patient was required to spend most of the remaining year confined in various laboratories. (Fig. D)

This face mask (moulage), Fig. E, was taken during his third year here, at which time the patient was assigned to physical therapy and oral rehabilitation in the operative, crown and bridge and prosthetic clinics. Therapy in these departments caused much physical pain and anguish, as can be seen from the expression on the moulage.

Finally, after four years of treatment, which included therapy by every doctor on the staff of BDC, the patient was released. The patient has supposedly undergone a cure for his original affliction of dumbness in the area of dentistry. He has been given an unconditional D.D.S. release from BDC (Fig. F), and in departing was admitted to OKU (Omicron Kappa Upsilon) for an annual check-up.

After several months, the above patient is at this time completely free from any symptoms and is currently residing in a city to the southeast of Dallas where he applies some of the principles and techniques he learned at this institution in an effort to alleviate the dental sufferings of other members of the human race.

*CARUTH SCHOOL
OF
DENTAL HYGIENE*

Caruth School of Dental Hygiene

Dr. Ruth R. Swords, *Director.*

Mrs. Betty Kersten, *Instructor.*

Mrs. Doris Mackey, *Registrar.*

Dental hygiene students learn to work together while in school. This experience is invaluable to them, as they function as a part of a dental health team when practicing their profession under the supervision of a dentist in a private dental office, after graduation.

Instruction given at the chair is probably the most meaningful the student receives while in school. Many facets of the dental hygienist's work are discussed with regard to the specific situation found in the individual patient's mouth, and the student's skill and understanding are increased.

One of the most important functions of the dental hygienist is as an educator. She gives her patients personalized instruction at the dental chair, and in so doing helps to develop positive attitudes which result in improved dental health practices.

"... Whereby enjoining myself the sacred duty of teaching the public, particularly children and young people, by

The first prophylaxis is an important step in future dental procedures for the child patient.

I want my mommy!

Kathy, this will make your teeth pretty and white!

The dental hygiene student learns the methods and techniques of educating children in the importance of dental hygiene.

The sick tooth said, "Why this is a candy bar and a lollipop."

The healthy tooth said, "You should not eat sweets..."

Preventive dentistry is practiced by giving applications of stannous fluoride to the child's teeth.

We're going to put this roll of cotton in your mouth...

... and then put the fluoride on your teeth...

precept, lecture and every other available method of instruction—the value of dental health as a priceless possession . . .”

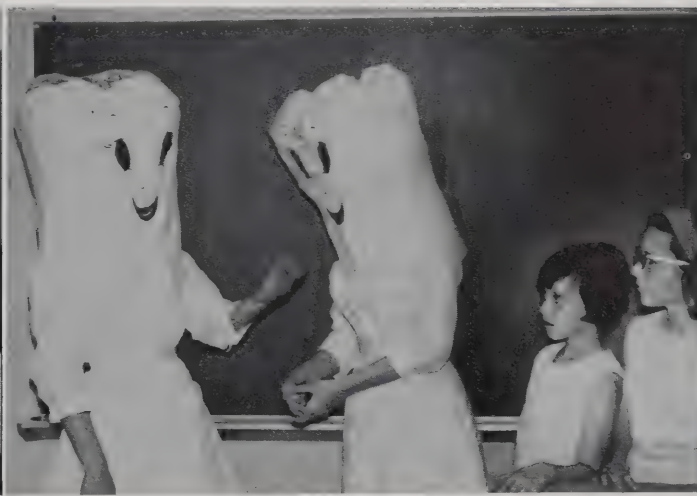

This is a tiny picture of your teeth to tell what's inside of them . . .

My, what a pretty smile . . . How your teeth sparkle!

. . . you should eat apples, carrots and other good foods and have your teeth cleaned twice a year.

Look at me now! It's such fun to be healthy that I promise to eat good food and stay clean.

Like this, Mrs. Kersten?

Whew! We're almost through . . . and then for the fluoride.

When September arrived, the Class of '64 had 39 returning seniors. Not being allowed to waste a minute, they plunged into clinic duties throughout the school. They hoped that all the difficult classes were in the past, but discovered a full schedule of clinic gave them little of the anticipated free time.

During the first week of school the class welcomed the new freshmen with a Jr. ADHA coke party. It seemed no time at all before the end of the first trimester and the capping ceremony which marked the achievement of the first big goal. It was then Christmas and the annual DH dance was combined with a supper at the Executive Inn. Our true Christmas spirit was shown by the caroling at the Young Home for the Aged.

The new year began with the threat of National Board Exams. The beautiful snowfall of winter, Easter time . . . and then the boards. The burning of the midnight oil was well spent as everyone passed.

One of the highlights of the year was the banquet given by the freshmen. At last the purple ribbons were received. Another activity this year was participating in the annual senior skit of the Dental College. After finals and requirements were completed, all students and their dates relaxed at the "Senior Farm Party." White Rock Lake was the scene of the Jr. ADHA picnic where each enjoyed baseball and horseback riding.

Graduation and the awards luncheon came. Each girl walked across the stage to receive her pin and certificate. It was indeed a wonderful feeling . . . at last to be a registered dental hygienist.

It's fruit punch . . . strictly fruit punch.

See . . . cleaning teeth can be fun.

Dental Hygiene II

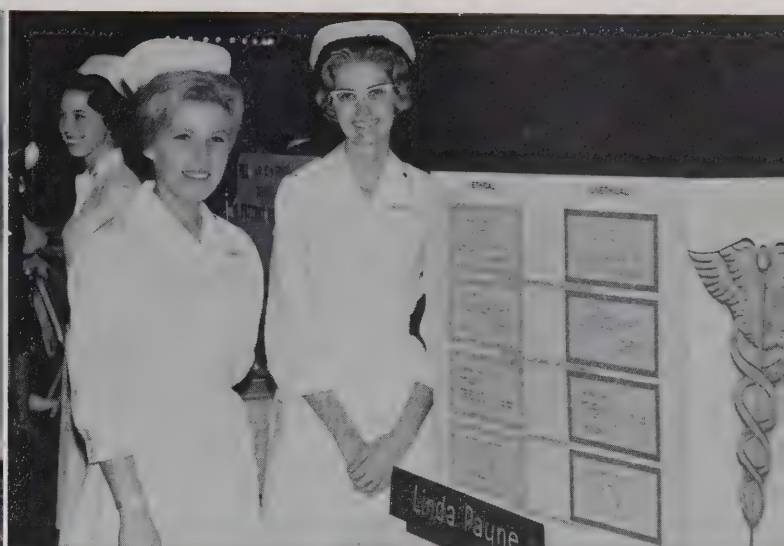

It takes at least two years to master these anesthesia cans.
 . . . and then my patient cancelled, too.

We want our girls to be happy and well nourished.
 But even hygienists eat sweets sometimes.

I'm beginning to think they aren't kidding about these requirements.

... and furthermore we recommend Crest toothpaste.

Dental Hygiene II

When I told him I still had three retakes you should have heard what he said!

... but I never said I wanted to be a lab man!

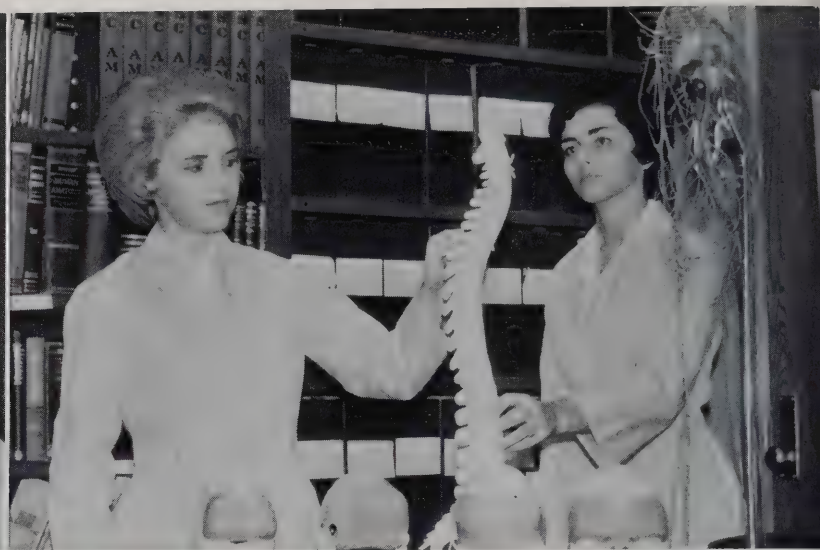

See ... I finally got one with a geographic tongue.

Is all this included in the tuition?

Those bitewing tabs to tend to smart a little.

Shades of anatomy.

Dental Hygiene II

Oh, well, five more pounds won't show much.
Wouldn't you just know "Ringo" has bad teeth.

Haven't you learned that sugar is bad for your teeth.
Maybe with a little help you won't have to see him the seventh time.

State Boards are over!

For the last time . . . I'm busy Saturday night.

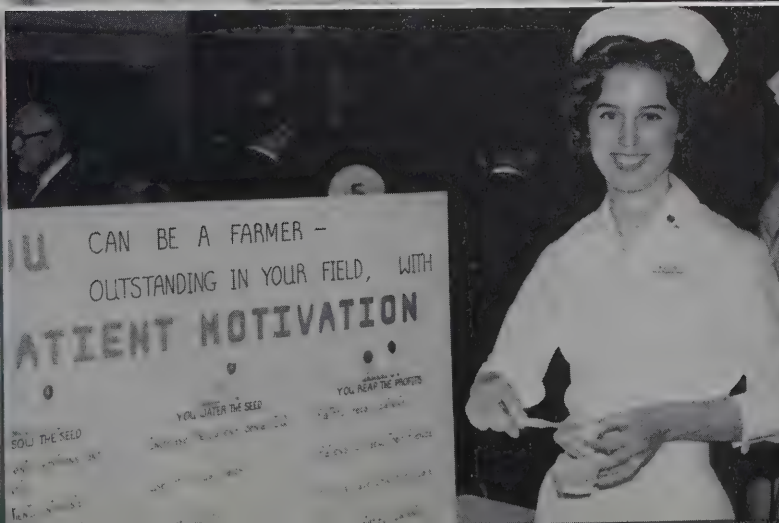

Dental Hygiene II

You aren't the only one who hopes I'll finish today.

Group demonstrations—an important part of the mid-winter clinic.

Now, girls . . . let's concentrate on these *mandibular* crowns.

Are you sure he wants his teeth cleaned?

Dental Hygiene I

President
Kathleen O'Neill
Secretary-Treasurer
Terrie Morrison
Social Chairman
Kris Bretz

Left to right: Kathleen O'Neill, Terrie Morrison and Kris Bretz.

We freshmen were welcomed with a luncheon at the Gaston Avenue Baptist Church upon our arrival at the Caruth School of Dental Hygiene. The fall of 1963 had begun.

To break up our study schedules we participated in many varied activities. We held bake sales to raise funds for our Freshman Hygiene Loan Fund; we "hooted" at the Hootenanny sponsored by the B.S.U. and we studied.

Just before Christmas the seniors were capped. The freshman class upheld the tradition of providing a chorus for the occasion.

Christmas approached, and with the holidays came caroling at a home for the aged. Our annual Christmas dance was held at the Executive Inn, and the most memorable event of all was our lovely Christmas party given by our director, Dr. Ruth Swords.

Scattered through the year our Junior American Dental Hygiene Association meetings offered many interesting speakers from throughout the state.

Then, before we knew it, the time had arrived to give the senior hygienists their final banquet and ribbons for their caps. With many weeks of planning and the much appreciated help of several of the KRLD disc jockeys, the banquet was a screaming success.

Top Row, left to right: Peggy Fountain, Kristin Bretz, Patricia Mitchel, Frances Manes, Susan Peters, Frieda Atherton, Janie Reynolds, Kathleen O'Neill, Julia Herron.

Bottom Row, left to right: Shirley D. Brazell, Creeda Jones, Sandra Hill, Shirley Bowles, Neva Sue Butler, Peggy Foulds, Mary Hollingsworth, Glenna Schulgen, Betty Durland.

Dental Hygiene I

Below—Top Row, left to right: Terrie Morrison, Pamela Bell, Anne Roach, Susan Tidwell, Joan Canady, Linda Rowan, Cathy Troegle, Rebecca Jane Albritton, Paula Carmack, Jo Ann McReynolds.

Bottom Row, left to right: Barbara Hagood, Joy Carter, Judy Maxwell, Ann Poling, Mary Lynne Hammond, Pamela Ward, Wanda Kay Albro, Gwentyh Verrechia, Patricia Whipple.

Let *me* tell you about it.

Concentrated effort.

Dental Hygiene I

What's that supposed to be?
The cake sale doesn't show.

I finally remembered to heat fix one.
Spellbound—by the cleverness of dental health education projects.

Loyal alumnae give their time to clinic instruction. Miss Crosssett instructs at the chair.

Miss Allender signs records after checking the student's work.

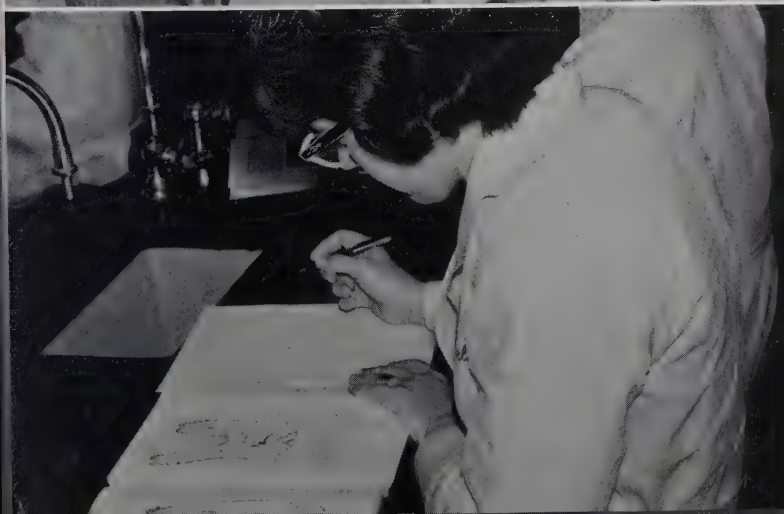

Dental Hygiene I

I found it!

I hope this will do.

Christmas party.

Division V.

We really weren't going to take it.

Why not make it easy and buy one of each?

Dental Hygiene I

If it's there, Tom will find it.
Practice makes perfect.

Red or blue?
Let me see it and I'll tell you what it is.

Not in my mouth you won't.

Bravo!

Senior Banquet

You don't say
Watch the birdie.

I've got it.
These aren't diamonds, just ribbons.

That will be \$1.00 for registration and \$3.50 for a prophy.

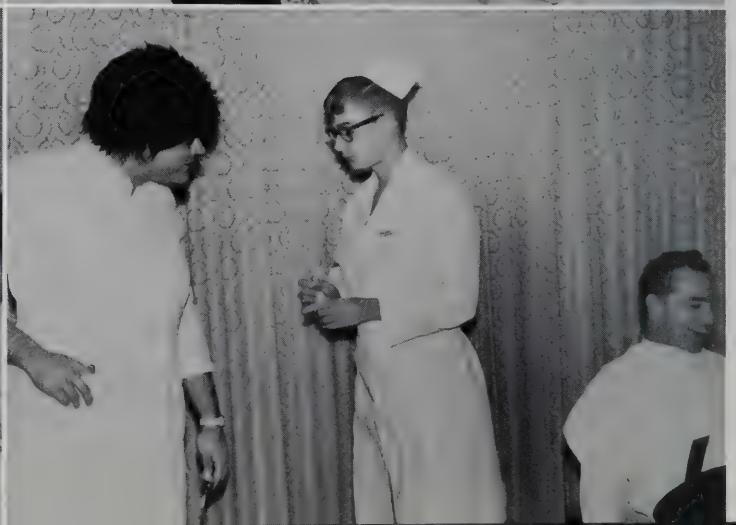

C-E-P-A-C-O-L

Senior Banquet

What have you, Norma?
It wasn't that funny.

Speakers table.
Don't give up.

Suddenly, you realize it was all worthwhile.

Award winners—Nancy Newell, Julie Guziel, Norma Chittenden, Ellen Gay Wilson and Randa Peach.

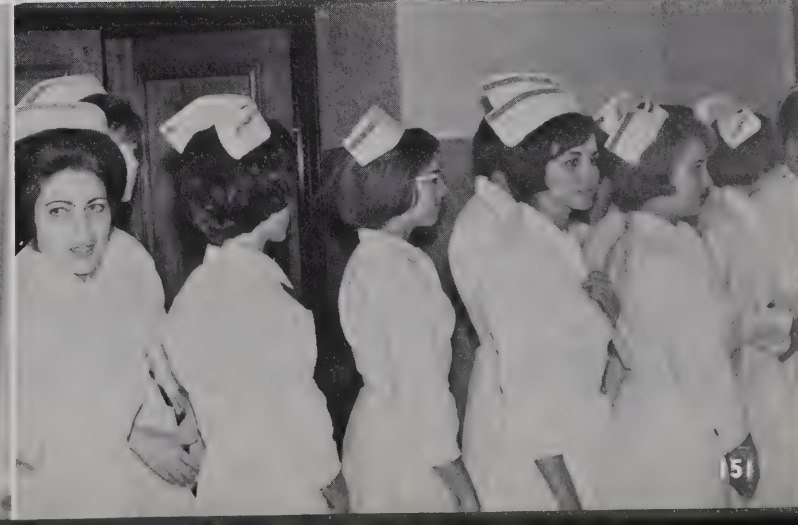

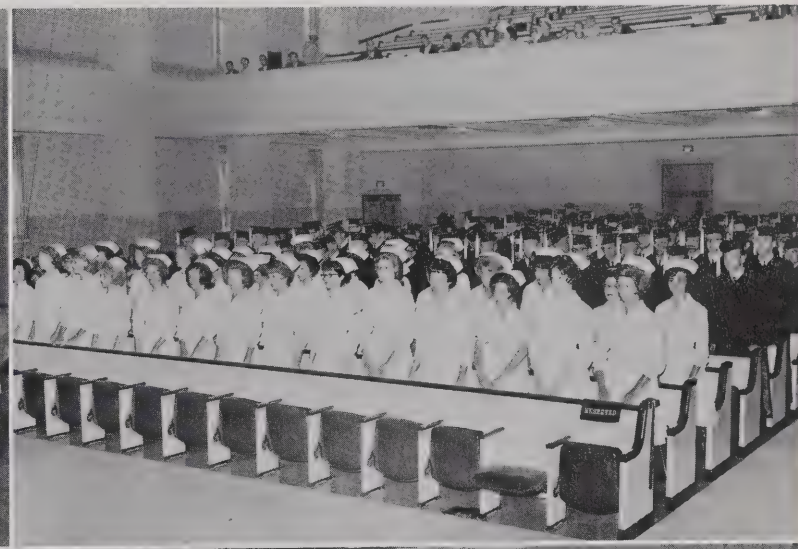

Graduation

Nancy Newell receives first honor from the Dean.

Dental families now: Doris with her brother, Dr. Dixon; Sheryl and her father, Capt. Myers; Pamela with her mother, Mrs. Cooper, D.H.

Thirty-seven hygienists—the largest group to graduate from the Caruth School.

Gulp! One more line before they turn us out into the cold cruel world.

Merl Scheffey and Associates

Financial Consultants

3000 TURTLE CREEK PLAZA • DALLAS, TEXAS 75219 • LAKESIDE 1-0250 (AREA 214)

Dear Doctor:

Our association with major financial institutions enables us to assist members of the dental profession, including senior students in dental school, in obtaining loans, repayable over a period of several years. Interest rates are competitively low and depend upon the purpose of the loan.

Funds are available on a signature-only basis. No collateral is required in most instances. This money may be used for a great variety of purposes. Senior students in dental school may obtain money to consolidate indebtedness, to pay for books, tuition, fees and equipment and to provide for living expenses while attending school. Often younger members of the profession are in need of help to purchase equipment, supplies and such other incidentals necessary to the start of, or conduct of, their practices. Others may wish to expand their practice, enlarge the scope of their activity, pay off existing indebtedness, purchase new or replacement equipment, pay taxes or life insurance premiums. Further, this low interest money might be a desirable source of operating capital. It is available in loans of from several thousand up to quite substantial amounts.

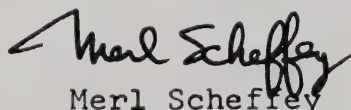

In addition to assisting you in obtaining capital for your varied needs, our firm offers many additional services which can be of inestimable value. These services encompass complete management of your financial affairs, including tax planning and other related areas.

Should you desire further information concerning this available capital, or our other services, please telephone us collect at LA-1-0250 (Area Code 214).

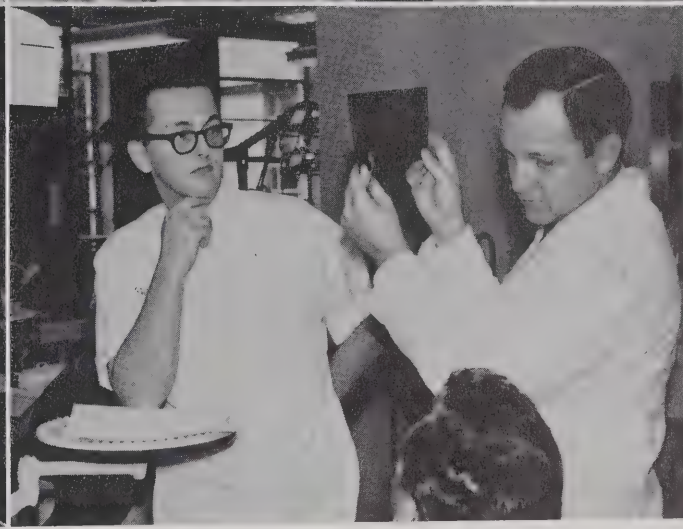

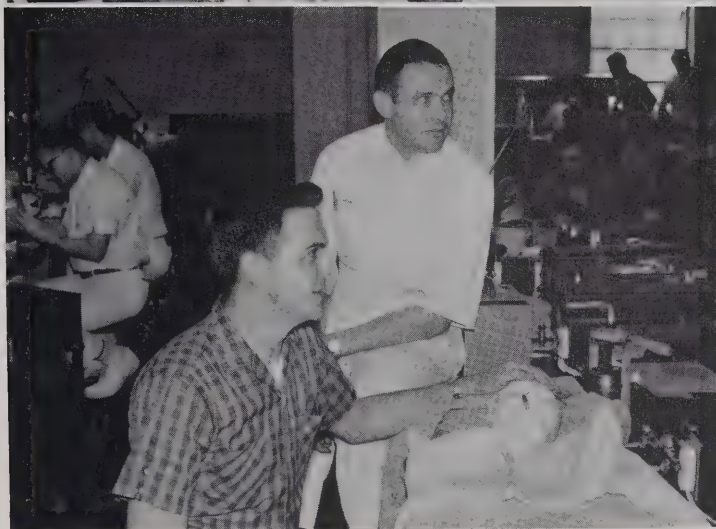

Naturally, any inquiry places you under no obligation--and, of course, is held in the strictest confidence.

Very truly yours,

MERL SCHEFFEY AND ASSOCIATES
